The Cosmic Computer H. Beam Piper,2017-07-05T22:08:43Z The Cosmic Computer is a 1963 science fiction novel by H Beam Piper based on his short story Graveyard of Dreams which was published in the February 1958 issue of Galaxy Magazine The action largely takes place on the planet Poictesme which is full of abandoned military installations and equipment hence the novel s original name Junkyard Planet Young Conn Maxwell returns from Earth with long awaited news about Merlin a military computer with god like abilities long rumored to be hidden somewhere on Poictesme Though convinced that the story is just a myth Conn and his father use the purported search for Merlin to drive the revitalization of the planet s economy In the process they discover far more than they expected As was typical for science fiction novels of the pulp era there is little character development and women play a minor role with romance given only a token treatment The emphasis is on the conflicts over the spoils of the planet and the fiercely competitive search for the titular cosmic computer This book is part of the Standard Ebooks project which produces free public domain ebooks

Victims of the Vortex and the Cosmic Computer Rog Phillips, H. Beam Piper, 2015-05-01

Armchair Fiction presents extra large editions of classic science fiction double novels The first novel is a minor masterpiece of science fiction and one of the better works by Rog Phillips titled *Victims of the Vortex* After a hard week of work Craig Terry was really looking forward to getting back to Earth and taking his girl to the big dance in Mongolia Unfortunately his pal Jack Spence had other plans One little alteration to the ship's controls made Terry bypass Earth and flung him into deep space It took moments for Terry to realize he wasn't going to make that dance and only half as long to figure out who betrayed him While he drifted through the vastness of space he encountered a life form in the shape of a lovely woman to him a goddess She had become trapped in his space-time field but they were only parallel for they could never touch He had accepted his own fate of tumbling endlessly through space but if something wasn't done soon she too would become trapped forever both of them victims of the vortex The second novel is *Cosmic Computer* by H Beam Piper Everybody on the war-torn planet of Poictesme believed it existed And they all believed that when this super-gigantic computer was located amid mountains and mountains of surplus equipment which was the planet's sole source of revenue it would mean the ultimate in Utopia for everyone But Conn Maxwell knew different He had studied the records on Earth and he thought he knew the true facts about this cosmic computer But to reveal these facts to the public would cause panic all over Poictesme so instead he methodically set about a new search in his own way a search that led to startling results H Beam Piper author of *Space Viking* produced an original and unusual novel of a fantastic future with his wonderful tale *The Cosmic Computer*
