The Medium's Story Ken Morris,2009-06-08 This is the true life story of Ken Morris and how he went from being a child frightened by the sight of a ghost in his bedroom to one of the United Kingdom s top Spiritualist Mediums After being awakened by the spirit of a young boy sitting on the end of his bed at the tender age of seven Ken has spent most of his childhood and adult life communicating with Spirit and learning how to pass on the messages they have for those on the Earth Plane Find out how Spirit helped Ken while he was a boy in school while he was raising his younger sisters and brother and in his first job as an adult Travel with him as he goes from church to church giving messages that prove life after death really does exist Join him as he clears houses of unwanted spirit and helps guide and protect the public during paranormal investigations at some of England s most haunted locations Included in the book is a section of poetry designed to bring comfort to those who have lost a loved one and descriptions of spiritual things ordinary people can be taught to do such as reading tea leaves and doodles

**Philosophy of the Medium** John Lechte,2023-10-19 Taking the principle of the disappearance of the medium into new territory this book questions the pervasive influence of the principle that the medium is the message Bold and expansive this book argues that we have for too long focused on the technical specificities of media when we should have been focusing on what it is that mediums do that is on their content rather than their formal and technical qualities With a re reading of McLuhan this volume offers a study of the conflicting views of technics as a medium in Bernard Stiegler s work as well as an investigation into the extent to which Michel Serres work on communication sheds light on the nature of medium Engaging also with the concept of Object Oriented Ontology OOO and the notion of probabilistic objects in quantum physics and climate change he explores the way in which measurement is perceived to create reality Concluding with a fascinating study of the implications of consciousness as a medium this book ultimately reconsiders and offers a deeper understanding of what we mean by the term media it is that which comes between and which facilitates the transmission of content essentially a creator of possibilities yet never present as such in the light of its success as a vehicle for meaning

Spiritist activities Since we human beings are an integral part of the interchange between the physical and the spirit planes of life it is best that we understand the mechanisms of this relationship as much as possible The Mediums Book is the safest manual for all those who dedicate themselves to activities involving communication with the spirit world
