The Continuous Path Samuel Duwe, Robert W. Preucel, 2019-04-16 Southwestern archaeology has long been fascinated with the scale and frequency of movement in Pueblo history from great migrations to short term mobility By collaborating with Pueblo communities archaeologists are learning that movement was and is much more than the result of economic opportunity or a response to social conflict Movement is one of the fundamental concepts of Pueblo thought and is essential in shaping the identities of contemporary Pueblos The Continuous Path challenges archaeologists to take Pueblo notions of movement seriously by privileging Pueblo concepts of being and becoming in the interpretation of anthropological data In this volume archaeologists anthropologists and Native community members weave multiple perspectives together to write histories of particular Pueblo peoples Within these histories are stories of the movements of people materials and ideas as well as the interconnectedness of all as the Pueblo people find leave and return to their middle places What results is an emphasis on historical continuities and the understanding that the

same concepts of movement that guided the actions of Pueblo people in the past continue to do so into the present and the future Movement is a never ending and directed journey toward an ideal existence and a continuous path of becoming This path began as the Pueblo people emerged from the underworld and sought their middle places and it continues today at multiple levels integrating the people the village and the individual

**Lessons from an Indian Day School** Adrea Lawrence, 2011-10-18 Clara D True and Clinton J Crandall teacher and superintendent for the Indian Day School of the Santa Clara Pueblo were typical agents in the campaign waged by the federal government to assimilate Native Americans into mainstream American society As the primary Office of Indian Affairs officials for the Pueblo True and Crandall administered the school and also served as de facto health officials demographers arbiters and legal consultants as well as the eyes and ears of the government Drawing upon an extensive correspondence between True and Crandall from 1902 to 1907 Adrea Lawrence provides an intimate look at the daily lives and challenges that the two educators faced as they worked with a diverse community of Tewa Indians and Hispanos Through this long overlooked correspondence Lawrence introduces us to two fascinating characters flawed but intent individuals charged with the task of carrying out the government s colonialist Indian education policy Through descriptions of such episodes as their disdain for older Indians suspicion of vaccination True and Crandall provide clear examples of the inherent contradictions in the federal government s culturally insensitive approach toward its Indian population Yet they were also great advocates for the Indians often stepping in to mediate in matters involving land and taxation The complex portrait of these educators that emerges is based not just on the letters but also on corresponding documents from Pueblo Indians periodicals legal cases statutes Indian Office circulars and anthropological studies conducted by both Native and non Native scholars Lawrence reveals the challenges federal employees faced as they tried to execute the

federal policy of assimilation while dealing with educative issues relating to land disease citizenship and modes of education that confronted Santa Clara Pueblo and its neighbors Several recurring themes are traced through each chapter such as colonization as negotiation place as a participant True and Crandall s notions of good and bad Indians and the significance of the relationships among Pueblo Indians Hispanos and Anglos Simultaneously caring and condescending dedicated yet oblivious to cultural complexities True and Crandall in these letters offer a rare and nuanced look at the daily interactions between OIA employees and their charges It makes a unique contribution to both Native American and education history
