Comptroller of the Treasury,New Jersey. Division of Budget and Accounting,1917 Includes statements for the previous year **The water white paper** Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee,2012-07-05 The Committee heard persuasive evidence about the environmental damage caused by over abstraction The reform of abstraction licenses must be brought forward as the Government s current plans to reform the abstraction regime by the mid to late 2020s will not take effect rapidly enough given that our rivers are already running dry Defra must also work with Ofwat and the Environment Agency to tackle urgently those abstractions which are already causing severe damage to our rivers It is extremely disappointing that the White Paper fails to set a target to increase levels of water metering The report also highlights how bad debt in the water sector adds around 15 to each household s water bill every year Defra must implement existing legal provisions rapidly to tackle this problem The Committee also examines proposals to increase competition in the sector They conclude that Defra should set a clear target date for opening a competitive retail market for water and should take account of lessons that can be learned from Scotland The Committee believes that the White Paper s proposals will fail to deliver a well functioning retail market and suggests how to remedy this The Government also needs to take action to encourage the development of Sustainable Drainage Systems SuDS which can reduce the risk of flooding and to implement the relevant outstanding provisions of the Flood and Water Management Act 2010 It is deeply worrying that the Government had not yet reached an agreement with insurers about providing cover for homes in areas of flood risk **Future flood and water management legislation** Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee,2010-12-22 Government must act to tackle the twin challenges of protecting over five million properties from flooding and maintaining clean reliable and affordable water supplies The Committee is concerned that the Government has cut flood defence funding and will in future require communities to pay a greater contribution towards the defences from which they benefit At a time of budgetary constraint the committee believes there is no certainty that this funding gap can be filled The report tells Ministers they must spell out

how the Government will deliver its pledge to focus public money for flood defence on those communities at greatest risk and least able to protect themselves ensure adequate and stable funding for local authorities and other agencies given new responsibilities under the Flood and Water Management Act 2010 to plan for and respond to flood events The report calls on the Government to sharpen the regulatory framework for the water industry to ensure it places customers views at the heart of a future strategy that will deliver improved affordability and water efficiency Ministers should clarify the role for social tariffs in helping those who have difficulty paying their water bills implement a solution that brings down bills for customers in regions where water charges are at present disproportionately high due to the need for large scale capital investment in sewage systems publish a strategy to implement a wider programme of metering and variable tariffs designed to improve water efficiency while protecting those on low incomes from unaffordable price rises
