Transforming The Codependent Woman:

The Transformation of Intimacy Anthony Giddens,2013-04-23 The sexual revolution an evocative term but what meaning can be given to it today How does sexuality come into being and what connections does it have with the changes that have affected personal life on a more general plane In answering these questions Anthony Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture The emergence of what the author calls plastic sexuality sexuality freed from its intrinsic relation to reproduction is analysed in terms of the long term development of the modern social order and social influences of the last few decades Giddens argues that the transformation of intimacy in which women have played the major part holds out the possibility of a radical democratization of the personal sphere This book will appeal to a large general audience as well as being essential reading for students and professionals Creative Transformation

Elizabeth Passmore,Susan Carter,2007 Whereas some literary motifs such as the tyrant the beggar and the crone have equivalents in the real world the Loathly Lady is a creature of the

imagination Yet she is not merely a whimsical fantasy This volume concentrates on the medieval English Loathly Lady tales which develop the motif as a vehicle for social ideology One of the primary agendas of this collection is to promote the non canonical Loathly Ladies as worthwhile subjects for scholarly consideration The examinations here of the medieval English Loathly Lady tales engage with a myriad of concerns including anxieties about virginity and sex power and assimilation beauty and beastliness These broad examinations of this enigmatic literary motif are an excellent contribution to the field and will be of great interest to scholars

Al-Anon Narratives Grazyna Zajdow, 2002-08-30 According to the author in Australia men drink alcohol as a mark of masculinity and women take care of drinking men as a part of normative femininity And while research on alcoholics and alcoholism is common very few studies consider the lives of the women who are married to alcoholics Here Zajdow details and explores the lives of such women who belong to Al Anon where they may share their experiences and offer their stories in a nonthreatening and supportive environment The author presents the narratives of these women in the context of her analysis of the self help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves and to show how these self stories can be changed and reconceptualized within the context of the group Unique in its examination of self stories offered within a self help group this book challenges sociological knowledge about the way these mutual aid groups operate as communities of interest and help Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women s relationships to alcoholic men She then provides the basis for using self stories to examine a group of people the individuals in the group and the behavior of the group in general A history of Al Anon as a self help group is also detailed and the author compares the Australian meetings to meetings in other parts of the world The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al Anon Tracing the way that these women move from a place of despair to one of hope and meaningful change this also represents a sociological exploration of gender families and communities Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09 Subject Guide to Books in Print

, 1997 **Transformation** Rosemary Nourse, 2002 Ugly duckling Jane Marshall has a very tough life struggling to get through nursing school and coping with an alcoholic mother She s all alone in the world except a beautiful old woman at the nursing home she works at After a horrible traffic accident Jane wakes up in the hospital only to find that her friend has died and left her the means to start an entirely new life She leaves for Montana where she meets Tray who helps her learn to love and trust again De Gruyter Handbook of Feminist Political Geography Sydney Calkin, Cordelia Freeman, 2025-11-17

Feminist Political Geography is a relatively new but rapidly growing area of interest in Geographical scholarship It emerged from feminist engagement with the sub discipline of Political Geography which broadly concerns the intersection of politics power and space and it responds to silences and absences in this sub discipline as well as wider silences in Geography scholarship While early scholarship in Feminist Political Geography concentrated on including women s bodies and lives in scholarship its focus has evolved and expanded over time Today Feminist Political Geography scholarship advances broader goals that do not necessarily entail a research focus on women but push us to think about other lives and bodies that are

traditionally absent from analysis It challenges us to reimagine and build just futures Like all feminist analysis this body of scholarship is not content with describing or explaining injustices it advances a normative critique of injustice and overtly commits itself to the project of justice In this book the reader will find chapters authored by leading scholars who interrogate key ideas debates and developments with a particular focus on intersectional ideas Structured into four sections that go from the origins of Feminist Political Geography to its futures this handbook is the definitive state of the art survey of this vibrant sub discipline
