## Take Murder:

**A Manual of Buddhism, in its modern development; translated from Singhalese MSS.** Robert Spence Hardy, 1853  
Murder's a Swine Nap Lombard, 2024-04-02 I should imagine this was murder too because it would be very difficult to build yourself into a heap of sandbags and then die In the blackout conditions of a wintry London night amateur sleuth Agnes Kinghof and a young air raid warden have stumbled upon a corpse stowed in the walls of their street s bomb shelter As the police begin their investigation the night is interrupted once again when Agnes upstairs neighbour Mrs Sibley is terrorised by the sight of a grisly pig s head at her fourth floor window With the discovery of more sinister threats mysteriously signed Pig sticker Agnes and her husband Andrew unable to resist a good mystery begin their investigation to deduce the identity of a villain living amongst them in their block of flats A witty and light hearted mystery full of intriguing period detail this rare gem of Golden Age crime returns to print for the first time since its publication in 1943 This edition includes an Introduction by award winning author Martin Edwards *Organized Crime and Use of Violence* United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations, 1980 Testimony Taken by the Joint Select Committee to Inquire Into the Condition of Affairs in the Late Insurrectionary States United States. Congress House, 1872 The Moral Wager Malcolm Murray, 2007-05-05 In the following chapters I offer an evolutionary account of morality and from that extrapolate a version of contractarianism I call consent theory Game theory helps to highlight the evolution of morality as a resolution of interpersonal conflicts under strategic negotiation It is this emphasis on strategic negotiation that underwrites the idea of consent Consent theory differs from other contractarian models by abandoning reliance on rational self interest in favour of evolutionary adaptation From this more emphasis will be placed on consent as natural convergence rather than consent as an idealization My picture of contractarianism then ends up looking more like the relativist model offered by Harman rather than the rational or pseudo rational model offered by Gauthier let alone the Kantian brands of Rawls or Scanlon So at least some of my discussion will dwell on why it is no loss to abandon hope for the universal categorical morality that rational models promise In the introduction I offer the betting analogy that underwrites the remaining picture There are some bets where the expected utility is positive though the odds of winning on this particular occasion are exceedingly low In such cases we cannot hope to give an argument that taking the bet is rational The only thing we can say is that those predisposed to take this kind of bet on these kinds of occasions will do better than those with other dispositions so long as such games occur often enough **The Sacco-Vanzetti Case** Newton Diehl Baker, Bartolomeo Vanzetti, 1928 Sacco and Vanzetti were tried at Dedham in the Superior Court of Massachusetts for Norfolk County May 31 July 14 1921 for the murder of F A Parmenter and A Berardelli at South Braintree April 15 1920 *Reports of Cases at Law and in Equity Argued and Determined in the Supreme Court of the State of Arkansas* Arkansas.
