concealed subtext of lesbian desire and sexuality The Pilgrimage of Dorothy Richardson explores the ways in which Richardson used such cultural forms as sexology psychoanalysis and other lesbian and modernist literature of her time to create an intertextual dialogue about lesbian identity Winning suggests that a sustained reading of lesbian sexuality in Pilgrimage is crucial to a more complete understanding of Richardson's long and sometimes difficult work Winning also places Pilgrimage in the context of other works by female modernist writers that record lesbian identity This approach Winning suggests is the first step toward recognizing and defining a literary movement that can be termed lesbian modernism as well as toward a deeper understanding of how lesbian modernist writers helped shape modernist literature as a whole
