[Translation - Theory and Practice](#)
Daniel Weissbort, Astradur Eysteinnsson, 2006-08-04 *Translation Theory and Practice A Historical Reader* responds to the need for a collection of primary texts on translation in the English tradition from the earliest times to the present day Based on an exhaustive survey of the wealth of available materials the Reader demonstrates throughout the link between theory and practice with excerpts not only of significant theoretical writings but of actual translations as well as excerpts on translation from letters interviews autobiographies and fiction The collection is intended as a teaching tool but also as an encyclopaedia for the use of translators and writers on translation It presents the full panoply of approaches to translation without necessarily judging between them but showing clearly what is to be gained or lost in each case Translations of key texts such as the Bible and the Homeric epic are traced through the ages with the same passages excerpted making it possible for readers to construct their own map of the evolution of translation and to evaluate in their historical contexts the variety of approaches The passages in question are also accompanied by ad verbum versions to facilitate comparison The bibliographies are likewise comprehensive The editors have drawn on the expertise of leading scholars in the field including the late James S Holmes Louis Kelly Jonathan Wilcox Jane Stevenson David Hopkins and many others In addition significant non English texts such as Martin

Contra Instrumentalism Lawrence Venuti, 2019-07-01 Contra Instrumentalism questions the long accepted notion that translation reproduces or transfers an invariant contained in or caused by the source text This instrumental model of translation has dominated translation theory and commentary for more than two millennia and its influence can be seen today in elite and popular cultures in academic institutions and in publishing in scholarly monographs and in literary journalism in the most rarefied theoretical discourses and in the most commonly used clichés Contra Instrumentalism aims to end the dominance of instrumentalism by showing how it grossly oversimplifies translation practice and fosters an illusion of immediate access to source texts Lawrence Venuti asserts that all translation is an interpretive act that necessarily entails ethical responsibilities and political commitments Venuti argues that a hermeneutic model offers a more comprehensive and incisive understanding of translation that enables an appreciation of not only the creative and scholarly aspects of what a translator does but also the crucial role translation plays in the cultural and social institutions that shape human life
