*Southern Locoman* George Hollands,1982\*      **Southern Railway, Lord Nelson Class 4-6-0s** Tim Hillier-Graves,2020-09-19 The Lord Nelson Class has come to be viewed as an also ran amongst express locomotives and is largely overlooked for that reason It had the misfortune to be sandwiched on Southern metals between the classic and much revered King Arthurs and Schools and by Bullied s controversial Pacifics In such company any design might suffer by comparison And yet when first appearing they attracted plaudits from railway professionals including the footplate crew and the public alike But with only 16 being built their impact was muted and any faults in their design were magnified beyond their actual impact In truth they deserved far better than this and were in fact sturdy reliable performers that served the company well on the heavy boat trains for which they were designed and across their other passenger services for 30 years and more in peace and war Much has been written about these locomotives but no story is ever complete with new information and photographs emerging to deepen our understanding of them This book provides an in depth view that re examines these impressive engines using new material eye witness accounts contemporary assessments and more than 200 photographs and drawings      *The Modified Bulleid Pacifics* Tim Hillier-Graves,2019-06-30 This British Railways history recounts the life of a controversial steam engine and its miraculous transformation at the hands of a brilliant engineer As Chief Mechanical Engineer of the Southern Railway Oliver Bulleid designed what were perhaps the most controversial steam locomotives ever built in Britain the Pacifics Loved and loathed in equal measure the debate over their strengths and weaknesses took on a new dimension when British Railways decided to modify them in the 1950s When noted engineer Ron Jarvis was charged with improving on Bulleid s designs he displayed a master s touch saving the best of Bulleid s work while incorporating other established design principles What emerged was described by Bert Spencer Gresley s talented assistant as taking a swan and creating a soaring eagle This book explores all the elements of the lives of these Pacifics and their two designers It draws on previously unpublished material to describe their gradual evolution which didn t start or finish with the 1950s major rebuilding program      **Railway Accidents and Incidents in South-East England** Douglas d'Enno,2024-02-15 A fascinating insight into some of the railway accidents and incidents that have taken place in Kent Surrey and Sussex      **The Railway Magazine** ,2001      **Men of Steam** David Wragg,2011-12-13 Few modes of travel have the enduring appeal of steam railways Today preserved lines locomotives and rolling stock attract not just expert enthusiasts but more casual visitors who are keen to savor the distinctive atmosphere of a lost era in transport history Yet these relics are but one aspect of the long story of steam for they cannot reveal the human side of working life on the railways the experience of the railwaymen who operated the machinery of the steam age It is this the human aspect of railway history that David Wragg has chosen as the subject of this landmark book He has selected extracts from the personal reminiscences of railway men to create an all round portrait of the industry in its prime He records their memories anecdotes and insights and

he brings the routines of the steam railway vividly back to life     Ottley's Bibliography of British Railway History.
