Soviet Political Economy in Transition Abu F. Dowlah,1992-03-23 Situating Gorbachev and perestroika historically and ideologically this book provides a comprehensive analysis of Soviet political economy in the

context of socialist theory and practice Challenging the belief that socialism is sternly committed to centralized economic and political structures Dowlah claims that socialism contains several theories some more centralized others less centralized The work examines Gorbachev s claim that perestroika embodies more socialism not less and evaluates perestroika as a strategy of transition to a new form of socialism Based on thorough inquiry textual evidence and historical fact the study concludes that Gorbachev s claims are substantially legitimate *The Second Economy in the USSR and Eastern Europe* Gregory

Comparative Systems & Planning Edward Tower,1990 **The Soviet Paradox** Seweryn Bialer,1987 This is the best account to date of Soviet politics between the time of Brezhnev s death and Gorbachev s first year The central theme concerns the tension between the imperatives of fundamental reform and the regime s basic intention to avoid it Bialer presents a Soviet leadership in transition confronting a series of intractable foreign policy problems Some readers will find his judgments controversial e g that American analysts consistently overestimate Soviet military strength or that lacking detente of the 1970s Soviet policy would have been more adventurous than it was Nevertheless Bialer s description of Soviet American misperceptions lends forceful credence to a prescription of arms reduction and managed rivalry Library Journal review Zachary T Irwin Political Science Dept Behrend Coll Pennsylvania State Univ Erie *Issues & Studies* ,1984
