David Ryan, Stephen Ausherman

The Thong Tree:

The Thong Tree Richard T. Haynes,1990-10 Walking through the Missouri woods with his grandfather Tyler Turner comes upon an ancient thong tree bent generations ago by an Indian scout as a marker and signal *Thong Trees of Newton County, AR* D. Larry Patterson,2014-05-07 In the Ozark Mountains Indians frequently created thong trees in the forest to mark trails point directions or mark sources of water shelter and good hunting or post any other information they wanted to pass along Many thong trees grew to tremendous girth and height with the snouts resembling full grown head down charging buffalo or horses Some snouts are nearly at ground level while others may be ten feet above the ground or higher Some even have more than one trunk growing vertically from the snout forming a double thong tree While thong trees can still be found scattered all over the Ozark Mountains of Missouri and Arkansas they seem to be extremely prevalent in Northwest Arkansas in and around Newton County This photo book depicts many examples of the thong trees the author discovered while hiking the trails along the Buffalo National River and exploring the back roads of rural Newton County
