

DIVINE COMMAND THEORY

Divine command theory is a philosophical theory that suggests that morality and ethical behavior are derived from the commands of God or Gods.

OVERVIEW

Divine command theory can be traced back to antiquity when Greek philosophers like Plato pondered whether a higher power had established an absolute moral code. In Christian thought, divine command theory has roots in St Augustine's belief that good deeds are to be performed to obey God's commands rather than personal desire.

KEY CONCEPTS

- **God's Sovereignty:** God's will is absolute and is the foundation for all moral principles.
- **Objective Moral Standards:** objective moral standards exist beyond human opinion or cultural relativism.
- **Moral Simplicity:** every action can be definitively categorized as right or wrong by comparing it against God's commands.
