## Unusual Suspects:

*Unusual Suspects* Kenneth R. Johnston, 2013-07-25 Robespierre's Reign of Terror spawned an evil little twin in William Pitt the Younger's Reign of Alarm 1792-1798. Terror beget Alarm. Many lives and careers were ruined in Britain as a result of the alarmist regime Pitt set up to suppress domestic dissent while waging his disastrous wars against republican France. Liberal young writers and intellectuals whose enthusiasm for the American and French revolutions raised hopes for Parliamentary reform at home saw their prospects blasted. Over a hundred trials for treason or sedition more than ever before or since in British history were staged against the usual suspects that is political activists. But other informal vigilante means were used against the unusual suspects of this book: jobs lost, contracts abrogated, engagements broken off, fellowships terminated, inheritances denied, and so on and on. As in the McCarthy era in 1950s America, blacklisting and rumor mongering did as much damage as legal repression. Dozens of almost famous writers saw their promising careers nipped in the bud: people like Helen Maria Williams, James Montgomery, William Friend Gilbert, Wakefield, John Thelwall, Joseph Priestley, Dr Thomas Beddoes, Francis Wrangham, and many others. *Unusual Suspects* tells the stories of some representative figures from this largely lost generation, restoring their voices to nationalistic historical accounts that have drowned them in triumphal celebrations of the rise of English Romanticism and England's ultimate victory over Napoleon. Their stories are compared with similar experiences of the first Romantic generation: Coleridge, Wordsworth, Southey, Lamb, Burns, and Blake. Wordsworth famously said of this decade: bliss was it in that dawn to be alive, but to be young was very heaven. These young people did not find it so, and neither when we look more closely did Wordsworth.

corporate interests that compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context Drawing on interviews with activists from a wide range of organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular Duffy s book opens a new window on the influence of Big Money in the supposedly democratic electoral process
