Urs Fischer:

Urs Fischer Urs Fischer, 2012 New York based artist Urs Fischer born 1973 in Zurich has devised a surreal universe in which dust bunnies are magnified into landscapes and a lump of clay squeezed in the artist's fist becomes a towering monolith In this catalogue for Fischer's solo exhibition at The Brant Foundation Art Study Center in Greenwich Connecticut a cast aluminum grave pierces the ceiling and the exhibition space becomes an excavation site A gallery wallpapered with trompe l'oeil reproductions of collector Peter Brant's living room features artworks from his extensive private collection Wax likenesses of Brant have been set alight and slowly melt away dissolving into puddles With these audacious formal investigations of scale and material Fischer has produced an off kilter installation that disconcerts and entrances **Urs**

Fischer Urs Fischer, 2017 Phantom Paintings gathers several series of paintings on aluminum panel produced over the last three years by the Swiss artist Urs Fischer born 1973 From far away many of these paintings appear to be large scale gestural abstractions but on closer inspection the viewer detects total flatness the abstract paint marks were actually photographed and silkscreened on top of images of personal spaces creating an image of abstraction rather than the abstraction itself This process allows a largeness of motion and an immediacy as two representational systems clash In other works the abstractions obstruct images taken from vintage Hollywood publicity headshots as well as close up photographs of the artist's own face Finally bold paintings on cutout aluminum panels push the limits of line color and shape transforming facial features into intersecting organic shapes that slide and mutate in a new form of landscape painting *Urs Fischer*

Sculptures 2013-2018 Urs Fischer, 2019-05-21 Featuring over 100 works and documentation of forty exhibitions and installations both public and private New York based artist Urs Fischer born 1973 presents six years of work in this substantial volume Arranged chronologically this book allows the reader to follow Fischer's developments in form and his frequent adventure into whimsy The artist's instinct for design is evident not only in his individual works but also in his clarity of vision for a space beautifully illustrated in this volume Sculpture inherently has physical presence and Fischer utilizes this to manipulate the viewer's perception of reality Encountering the immense and the minuscule the ever changing and the static a viewer must reconcile with his or her own presence in time With this volume the reader is invited to experience significant ephemeral collaborative and interactive works in context in over 400 pages plus gatefold inserts

Urs Fischer Urs Fischer, Massimiliano Gioni, 2009 This catalogue is the culmination of four years of work and takes over all three gallery floors of the New Museum New York [Urs Fischer: Beds and Problem Paintings](#), 2012-09-25 Urs Fischer's work explores the genres of classical art history still lifes portraits nudes landscapes and interiors at the intersection with everyday life in cast sculptures and assemblages paintings digital montages spatial installations mutating or kinetic objects and texts This volume includes fifty five color illustrations from Urs Fischer's *Beds and Problem Paintings* show that was exhibited at Gagosian Gallery in Los Angeles from February 23 April 7 2012 This was the artist's first major solo exhibition

Fischer,2012 *Bodies of Stone in the Media, Visual Culture and the Arts* Alessandra Violi,Barbara Grespi,Andrea Pinotti,Pietro Conte,2025-10-01 If mediatization has surprisingly revealed the secret life of inert matter and the face of things the flipside of this has been the petrification of living organisms an invasion of stone bodies in a state of suspended animation Within a contemporary imaginary pervaded by new forms of animism the paradigm of death looms large in many areas of artistic experimentation pushing the modern body towards mineral modes of being which revive ancient myths of flesh made stone and the issue of the monument Scholars in media visual culture and the arts propose studies of bodies of stone from actors simulating statues to the transmutation of the filmic body into a fossil from the real treatment of the cadaver as a mineral living object to the rediscovery of materials such as wax from the quest for a thermal equivalence between stone and flesh to the transformation of the biomedical body into a living monument
