Usa Interstate Highways:

The Roads that Built America Dan McNichol, 2006 The year 2006 celebrates the 50th anniversary of the U S Interstate System the most incredible road system in the world Created by Dwight D Eisenhower whose WW II experiences taught him the necessity of a superhighway for military transport and evacuation in wartime today s Interstate System is what connects our coasts and our borders our cities and small towns It s made possible our suburban lifestyle and caused the vast proliferation of businesses from HoJos to Holiday Inns And if you order something online most likely it s a truck barreling along an interstate that gets the product to your door Written by bestselling author Dan McNichol *The Roads that Built America* is the fascinating story of the largest engineering project the world has ever known [General Location of National System of Interstate Highways](#) United States.
