Crowded Out! Susie Frances Harrison,1886 Crowded Out and Other Sketches by S Frances Harrison is a collection of sketches likely written during the late 19th century The work seeks to capture various aspects and phases of colonial life particularly from a Canadian perspective blending both truth and imagination to explore unique individual characteristics in society The opening of this collection sets the tone with a poignant and introspective piece about an unnamed protagonist who finds himself in a state of desperation and ambition while living in London He reflects on his artistic aspirations grappling with the reality of being an unknown toiling within the boundaries of a vast city that seems indifferent to his existence As he seeks recognition for his creations including an opera dear to him he is haunted by memories of a love Hortense who remains a distant dream The narrative paints a vivid picture of the protagonist s feelings of loneliness longing and passion for both his art and the city itself establishing a foundation for the sketches that follow in the anthology This is an automatically generated summary Quarterly of the Colorado School of Mines ,1910 **Mines and Methods** ,1909
