approach to such topics as youth participation and diversity Because youth practitioners typically identify themselves with one or more contexts such as youth serving organizations or faith based organizations editors Stephen F Hamilton and Mary Agnes Hamilton have arranged the book so that each chapter explores the application of youth development principles to its context drawing on current research Part I of the book is organized around contexts in which adolescents grow up such as schools workplaces families peer groups youth serving organizations faith based organizations recreation groups juvenile courts health clinics neighborhoods and cyberspace Part II addresses broader issues such as evaluation funding and community wide initiatives and the concluding chapter identifies themes that cut across contexts including mentoring universal vs targeted approaches and evidence based practice Features of this volume Chapters written expressly for the book by established scholars committed to learning from the field and making research useful to practitioners in everyday life Rather than a how to guide the book is a source of information and ideas for use in planning programs training practitioners and understanding the perspectives of partners in community collaborations Original case studies provide illustrations of good practice in working with youth to optimize growth and development in varied settings such as the family school youth organizations and workplaces Serves as both a useful reference and as a state of the art account of youth development as a field The Youth Development Handbook is designed for scholars and researchers in applied developmental science as well as practitioners and policy makers who implement youth development initiatives The book is also recommended for use in graduate courses on youth development in the fields of Psychology Human Development Family Studies and Education

The Youth Development Handbook, 2004 This book gives students and practitioners in development psychology access to current theory and research along with illustrations of good practice The main section is organized around the contexts in which adolescents grow up The next section addresses evaluation funding and community wide initiatives The concluding chapter identifies multidisciplinary themes
