

## OTHELLO: THE GENRE OF TRAGEDY

Shakespeare's *Othello* fits within the genre of a 'tragedy', and it follows by and large tragic conventions. Classical tragedies have very strict rules and parameters. We've detailed the main points about tragedy and how they link to *Othello* below, to help you understand how the genre influences the play and its ideas.

It's important to note that the main point of a tragedy is that the tragic hero has a **fatal flaw** (*hamartia*): a character fault that undoes his or her good work and results in their death and downfall. We're supposed to watch a tragedy and learn 'how not to be' – from analysing the flaw and understanding how it ruins a person's life. In *Othello*, the titular character is initially shown as good and loving, an upstanding citizen of Venice despite his background. This can be seen from early statements about Othello, for instance he is described as being "far more fair than black". However, his flaw ruins his standing in Venetian society and leads to the death of the person he once loved.

The key message is 'Don't be like Othello', but the flaw itself is debatable. Is it pride, or jealousy? His naivety? Mental weakness and being easily influenced? Something else? Through closely analysing *Othello* and trying to figure out this weakness, we can learn to assess what kinds of emotions and behaviours have bad consequences, and so avoid them in our own lives.
