

COLORECTAL SURGERY

VSA surgeons have been at the forefront of colorectal surgery in Northern Virginia for over 50 years. Our providers have performed thousands of these procedures, ranging from life-saving colon resections to the more advanced robotic procedures available. We were the first to perform minimally invasive colon surgery in the area, when others said it couldn't be done. Now laparoscopic colon surgery is routine. We were the first locally to perform robotic rectal surgery. These are just a few of the reasons you feel sure it will be early and our patients are out of a few weeks.

While all of our surgeons are fully trained in colorectal surgery and perform these procedures routinely, we also have 2 different subspecialty surgeons in our group. These providers offer not only the full spectrum of standard colorectal procedures, but also are skilled in those cases that are not of the ordinary: complex anastomotic problems, inflammatory bowel disease, and unusual conditions of the intestine. Together we work as a team to provide the population of Northern Virginia the highest volume of colorectal surgical care of any surgical practice.

We strive to make the surgical journey through these often major surgeries as comfortable and convenient as possible for our patients. From routine preoperative educational materials and telephone consultations to in-house colonoscopies from the comfort of home to the greatest depth of surgical experience, VSA is there to serve the patient at every step.

We strive to make the stressful journey through these often major surgeries as comfortable and streamlined as possible for our patients.
