Johnson,2006-03 How do educators better reach

their students better capture their attention and imagination without sacrificing scholarship Teachable Moments Essays on Experiential Education examines the pedagogy of Prescott College a school that has embraced experiential education and been finding success with it for over thirty years These essays from scholars in fields as wide ranging as religious studies environmental science psychology dance literature adventure education and peace studies examine the challenges and ultimately the rewards of student centered education Each essay is preceded by an introduction that presents a synopsis of the work the writer s biographical information and a brief comment from the writer The principles of experiential education from pedagogy and class preparation to actual experiences and administrative duties are shared throughout in story and anecdote Teachable Moments Essays on Experiential Education is a helpful guide for all educators **Harvard Studies in Classical Philology** ,1892 **20 Teachable Virtues** Jerry Wyckoff,1995-08-01 How can you be sure that you re teaching your children the lessons of virtue that were passed on to you Today s parents often feel that they have too little time in their busy schedules to handle such an important task They re not even sure where to begin In 20 Teachable Virtues authors Barbara C Unell and Jerry L Wyckoff Ph D demonstrate the simple ways that you can teach your children to care about others and about themselves By using everyday time together however brief you can pass on the lessons of virtue that are most important to your family today and for generations to come At a time when values seem to be on the decline and children are looking to their parents for guidance this new book argues that the building of a more moral society begins in the home Through numerous anecdotes and examples Unell and Wyckoff show parents how a select group of 20 virtues can be instilled and warn how easily kids can be sent the wrong message To learn to live in society write the authors all children must learn to balance their personal wants against the needs of the social group family neighborhood school society Today we see far too few examples of this kind of balance as people put their own wants and needs above all others all of the time Through the use of numerous anecdotes which illustrate each virtue 20 Teachable Virtues shows how common occurrences can become teachable moments
