**Sharing the Easter Faith with Children** Carolyn C. Brown,2011-07-01 Sharing the Easter Faith with Children is theologically sound biblically focused educationally on target and developmentally appropriate Carolyn Brown writes clearly and helpfully with conviction and passion for what to share and how to share one s faith with children It should be required reading for every parent educator and pastor who wants to communicate and celebrate the Easter faith with children Brown packs a lot of practical suggestions insights and activities into this very readable resource I am confident children will mature in their understanding and affirmation of the Easter faith when they have been nurtured in families and congregations that take seriously what Brown offers Donald Griggs author of Teaching Today s Teachers to Teach It is easy to share the Christmas story and faith with children The story is beautiful and lends itself well to pageants and other celebratory events for children It is not so easy to share the Easter story and faith with children because the message and images are complex Many parents have trouble articulating what Easter means to them

personally much less answering their children's questions. In many congregations children are featured in palm parades on Palm Sunday but they are not specifically planned for at other Holy Week services. When schools schedule an Easter break many families go away and thus unintentionally bypass the whole Easter message for years. This book explores what the Easter message can mean to children as they grow up. The author helps congregations and families share the Easter message with their children and include the children meaningfully in Lent, Holy Week and Easter observances. Included are materials for children from birth in the church nursery to age 12 and reproducible pages to create a booklet for parents. The first section of the book describes the particular parts of the Easter faith that are important to children at different ages and comments on the biblical Easter texts from a child's point of view. The second part of the book works through the Lenten season describing ways congregations can include children and providing program and worship plans including Lenten disciplines for children and their families. Ash Wednesday Celebrating Palm Sunday or looking ahead on Passion Sunday Maundy Thursday Recalling the Last Supper Keeping Good Friday The church sponsored Easter Egg Hunt Easter Sunday Morning. Another part of the book offers help to leaders who want to share the content with teachers, parents or committees. Also included is a comprehensive list of related resources. This carefully researched and well grounded practical resource from a highly regarded Christian educator will strengthen your educational ministry with children and support parents as they shape the faith of their children.

**The Easter Computus and the Origins of the Christian Era** Alden A. Mosshammer, 2008-10-16 The system of numbering the years AD (Anni Domini) Years of the Lord originated with Dionysius Exiguus. Dionysius drafted a 95 year table of dates for Easter beginning with the year 532 AD. Why Dionysius chose the year that he did to number as 1 has been a source of controversy and speculation for almost 1500 years. According to the Gospel of Luke 3:1-3:23 Jesus was baptized in the 15th year of the emperor Tiberius and was about 30 years old at the time. The 15th year of Tiberius was AD 29. If Jesus was 30 years old in AD 29 then he was born in the year that we call 2 BC. Most ancient authorities dated the Nativity accordingly. Alden Mosshammer provides the first comprehensive study of early Christian methods for calculating the date of Easter to have appeared in English in more than one hundred years. He offers an entirely new history of those methods both Latin and Greek from the earliest such calculations in the late second century until the emergence of the Byzantine era in the seventh century. From this history Mosshammer draws the fresh hypothesis that Dionysius did not calculate or otherwise invent a new date for the birth of Jesus, instead adopting a date that was already well established in the Greek church. Mosshammer offers compelling new conclusions on the origins of the Christian era drawing upon evidence found in the fragments of Julius Africanus of Panodorus of Alexandria and in the traditions of the Armenian church.
