McMahon,2010-04-15 Many observers have portrayed the Oslo Process as a milestone in the peacemaking process between Palestinians and Israelis In this controversial and groundbreaking new work McMahon challenges the interpretation of the Oslo Process as a breakthrough or new beginning in Palestinian Israeli relations He argues that the Oslo Process affected no discursive or non discursive change and that the Oslo Process in fact institutionalized the analytics practices involved in Israeli and Palestinian relations It should McMahon concludes be no surprise that the process ended with direct Palestinian Israeli violence This book will be crucial reading for scholars of Israeli and Palestinian relations as well as anyone who is interested in understanding what discursive change must occur for peace between Israel and Palestinians to be established and sustained Plans for Peace Karen Feste,1991-11-30

Although much has been written about the Arab Israeli conflict and about general theories of negotiation this analysis and history is unique in linking major issues and peace plans to negotiation theory and strategy Feste studies the basic structures of conflict and negotiation offering no suggestions for radical solution but arguing for changes in approach that may bring about steps forward This overview of all major peace efforts since 1947 and of negotiating strategies is intended for undergraduate and graduate courses in conflict resolution Middle Eastern politics and international relations and for the use of political scientists sociologists students and teachers concerned with ethnoconflict The text analyzes the framework of the Arab Israeli conflict how it has built up and how it has been maintained The structure of the negotiation process is then viewed in the same way Key elements in the Arab Israeli conflict are considered historically and related directly to the process of negotiation and to theories about positional and principled bargaining and tactics needed in a pre negotiation period and during negotiation to produce more successful results **Handbook of Research on Transitional Justice and Peace Building in Turbulent Regions** Cante,

Threats to Peace and International Security: Asia versus West Juan Cayón Peña,J. Martín Ramírez,2023-03-27 This book aims to analyze from a multidisciplinary perspective the current geopolitical conflict between East and West between two differentiated and apparently conflicting cosmogonic visions The geopolitical evolution of the current panorama seems to lead to a new world in the field of international relations a new board played on a planetary level Once again bloc geopolitics can be glimpsed in the immediate future in which the most important actors such as Russia China the United States of America and the European Union are called to position themselves with respect to the territorial and strategic ambitions of the opponent International law seems to be overwhelmed by military actions and factual pressure on the ground while the battle of ideas extends to the technological field and cyberspace The different origins of the authors with extensive academic military police forces and business experience undoubtedly enriches the unique perspective that this work intends to address always in the attempt to enforce international law and the channels of dialogue between nations such as the best solution to conflicts
