## **The Cockroach Combat Manual:**

*The Cockroach Combat Manual II* Dr. Austin M. Frishman & Paul J. Bello, 2013-10 In the early 80s we were evaluating a new cockroach control product in a high rise housing project Cockroach populations were high even though the apartment we were in was squeaky clean The three small children that shared a twin bed there looked different to me but I wasn't sure why Dr Frishman pointed out that they didn't have any eye brows or lashes and then he exposed thousands of roaches hiding behind the head board Some things you never forget In my view having Paul Bello an industry expert himself with years of practical experience team up with Dr Cockroach makes *The Cockroach Combat Manual II* a must read because cockroach control is deserving of our best efforts

**The Cockroach Combat Manual** Austin M. Frishman, Arthur P. Schwartz, 1980-01-01 **The Cockroach Combat Manual** Austin M. Frishman, Arthur P. Schwartz, 1980 *The Cockroach Papers* Richard Schweid, 2015-06-04 Skittering figures of urban legend and a ubiquitous reality cockroaches are nearly as abhorred as they are ancient Even as our efforts to exterminate them have developed into ever more complex forms of chemical warfare roaches basic design of six legs two hypersensitive antennae and one set of voracious mandibles has persisted unchanged for millions of years But as Richard Schweid shows in *The Cockroach Papers* while some species of these evolutionary superstars do indeed plague our kitchens and restaurants exacerbate our asthma and carry disease our belief in their total villainy is ultimately misplaced Traveling from New York City to Louisiana Mexico Nicaragua and Morocco Schweid blends stories of his own squirm inducing roach encounters with meticulous research to spin a tale both humorous and harrowing As he investigates roaches more nefarious interactions with our species particularly with those of us living at the margins of society Schweid also explores their astonishing diversity how they mate what they'll eat and what we've written about them from Kafka and Nelson Algren to archy and mehitabel Knowledge soon turns into respect and Schweid looks beyond his own fears to arrive at an uncomfortable truth We humans are no more peaceful tidy or responsible about taking care of the Earth or each other than these tiny creatures that swarm in the dark corners of our minds homes and cereal boxes
