The Coming China Joseph King Goodrich,1911 *The Coming China (Classic Reprint)* Joseph King Goodrich,2015-07-26 Excerpt from *The Coming China* Before really beginning to write about what that great nation China may do and probably will do when once the leaven which is now working shall have brought about an activity along lines of development that we of the West and to speak with what may be rather displeasing frankness we of America especially are disposed to look upon as a trait of character sharply differentiating us from the continental Asiatic it is only honest to mention some impressions that were made forty five years ago when as a lad I first went to China to live in one of the smallest most conservative of the treaty ports Swatow up the coast about two hundred miles or so from Hongkong The long journey from New York to Hongkong was far more picturesquely made at that time than it is now if it was not so quickly done To go by way of Europe the Mediterranean the Red Sea the Indian Ocean and the China Sea was altogether too costly so I went by steamer to Aspinwall Colon let it be remembered that even the pioneer trans continental railway the Union and the Central Pacific was not opened until three years after I made my first trip to the Far East From Aspinwall I crossed the Isthmus by the Panama Railway taking the best part of a day to accomplish the forty or so miles went up the west coast by another steamer to San Francisco and after three weeks delay there took passage in a large sailing vessel loaded with wheat and flour direct for Hongkong although we passed in front of Honolulu and so close to the beach that we could distinguish a single individual on the shore and our numbers were read from the observatory so that our passing was reported by the next mail going back to San Francisco About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Coming King James Edson White,1900 **The coming energy crash and its impact on the European Union (Egmont Paper 17)** , *The Coming Conflict with China* Richard Bernstein,Ross H. Munro,1998-02-03 From two former Beijing bureau chiefs with long experience in Asian affairs comes a clear eyed and uncompromising look at the potentially disastrous collision course now taking shape in U S China relations Aggressively anti American China has nuclear weapons deliberately targeted at the

United States Recent confrontations between Chinese and American military forces indicate that China may try to take Taiwan by force While our trade deficit rises to unprecedented heights the powerful new china lobby shapes U S policy with the support of American businesses eager for a share of its booming markets The Coming Conflict with China is required reading for those who wish to understand the tense global rivalry that is already shaping the course of the 21st century Plunges harpoons into the tenderest interstices of the Chinese American relationship New York Times Disturbing and provocative There is plenty to worry about Wall Street Journal **Young China** ,1921 **China's Coming War with Asia** Jonathan Holslag,2015-03-17 China s ambition is to rise peacefully Avoiding fierce conflicts with its Asian neighbors is essential to this goal Jonathan Holslag makes a brilliant case for the geopolitical dilemma facing the rising China and his argument that China will likely enter into major conflict with Asia is compelling and thoughtful Both Chinese experts and decision makers will find this book illuminating reading Asia is set for another great power war As China s influence spreads beyond its territorial borders and its global aspirations gain momentum so tensions with its neighbors are reaching breaking point In this clear sighted book Jonathan Holslag debunks the myth of China s peaceful rise arguing instead that China s policy of shrewd intransigence towards other Asian countries will inevitably result in serious conflict China s ambitions are not malicious But what China wants namely to maximize its security and prosperity will lead to a huge power imbalance where China towers above her neighbors impels them into unequal partnerships and is increasingly able to seize disputed territory At present China s focused and uncompromising pursuit of its own interests is bearing fruit Many of China s neighbors are still too weak to counter Beijing s influence and China has ably exploited divisions between them to divide and rule But several regional powers are now joining forces to stop China With the PRC unlikely to back down and nationalism riding high China s coming war with Asia is already in the making Proceedings of the United States Naval Institute United States Naval Institute,1925 **China Review** ,1922 **Pentagon's South Asia Defence and Strategic Year Book 2010** Col. Harjeet Singh (Retd),2010 Pentagon s South Asia Defence and Strategic Yearbook is now in its fourth year of publication It covers relevant issues of defence and security military affairs and military technology written by experts and academicians themselves These issues are important for defence services foreign ministers and security experts spread among defence units strategic think tanks government organisations public sector units national and international technology manufacturers and diplomats and bureaucrats The book has been extremely well received and its circulation has grown tremendously in the last three years It has been regularly reviewed in the USI Journal and other reputed journals and magazines As The Book Review has commented In comparison to the other yearbooks this book stands out due to the well documented opinion peices by the experienced people from the armed forces think tanks and academics It creates a space for dialogue on important topics China's Relations with Arabia and the Gulf 1949-1999 Mohamed Mousa Mohamed Ali Bin Huwaidin,2003-09-02 This book provides a detailed analysis of China s foreign policy towards the Gulf and Arabian peninsula

region from the establishment of the People's Republic of China in 1949 to the end of the 20th century. Based on extensive original research, it looks at the relations between China and each of the countries of the region over the entire period. It demonstrates that two key factors have shaped China's foreign policy with the region: China's relations with the United States and the Soviet Union, and China's drive to increase its economic ties with the countries of the region, especially after becoming a net importer of oil in the early 1990s.
