The Last Rainbow:

The Last Rainbow Parke Godwin, 1986 *Rainbow Warriors* Maité Momo, 2014-10-20 Following the lives of the three ships with the name Rainbow Warrior this book written by a long serving Greenpeace activist tells the inside stories of life on board and recounts some of the ship's most exciting adventures and actions. It is at once a narrative of real life on board a history of some of the most famous vessels in the world and also a history of Greenpeace itself which goes beyond the oceans and touches on many aspects of the organization's work. In the end though it aims to bring out the personal stories and firsthand accounts of the ship's adventures, tales from the high seas full of action and daring but also of humanity and great compassion. Starting with the early life of Greenpeace and the bombing of the Rainbow Warrior I by the French secret service through to the imprisonment of the Arctic 30 by the Russians the stories are brought to life with photos from the Greenpeace archives, maps and nautical charts. The most symbolic items belonging to the ship's historical inventory are also included. Maité Momo has been a Greenpeace activist for over ten years. With the sea in her blood she started on a small boat the Zorba and then moved on to crew for the Arctic Sunrise, Esperanza and Rainbow Warrior. Spending half her year at sea she has sailed from pole to pole, taken part in numerous actions and has put herself between the harpoon and the whale.

The Last Rainbow Neil Ferguson, 2014-12-09 **Revelation** Edward Reaugh Smith, 2015-12-15 With this major work Edward Reaugh Smith concludes his singular series on the Bible and Anthroposophy. Understanding the Book of Revelation presents the ultimate challenge to those who wish to penetrate its deepest meaning, a spiritual mountain whose summit has remained beyond reach to most people. Paradoxically in spite of its name Revelation is the most veiled and mysterious book in the Bible. A century ago Rudolf Steiner opened a route to that summit. This book is the first extensive application of that priceless resource to the full text of Revelation. The substance of what Steiner tells us about John's Revelation derives from the individuality who had that Apocalyptic Vision; he was a seer and visionary and his account is esoteric and open only to such a seer. Smith presents Steiner as a seer who for the first time since John wrote his Revelation has penetrated the obscuring veil of this text. The scope of John's vision and Steiner's exposition covers the vast stretch of our human journey. Our ongoing involvement in that journey is not optional. We are each in it from beginning to end. This book is for those who would awake to it.

The Cambrian, 1918 *The Last of the Rainbow* John Hepworth, 1962 *GREENpeace VIEWS* Delius Klasing Verlag GmbH, 2022-01-20 At sea on land or from the air, spectacular and oftentimes dangerous actions make Greenpeace world famous and successful. Non-violent and uncompromising. For five decades the environmental activists take a stand for the wonders of our planet, fight for climate protection and develop solutions for the most imminent environmental problems of our time. This illustrated book documents the greatest and most important Greenpeace actions of all times, from the first protests against nuclear tests in Alaska to today's campaigns against deforestation of the rainforest and overfishing of the oceans. Short, concise texts and numerous large-sized photos focus on the visual effect and enormous power of the

environmental movement Thrilling rousing outstanding Exceptional illustrated book on 50 years of Greenpeace fascinating photos of the history of the biggest environmental organisation Numerous large sized moving photos of the greatest and most important Greenpeace campaigns and demonstrations worldwide Short text with background information on selected Greenpeace actions Their story reminds one of David and Goliath Greenpeace activists demand and foster the protection of nature and mankind and do not shy away from conflicts with politicians major corporations and destroyers of the environment With thrilling photos this book shows how groundbreaking their actions really are Pictures of environmental pollution and destruction contrast photos that show the outstanding campaigns against it Large format photos put you close to the action and give you a first hand experience of the greatest actions for environment protection all around the world Unique insights into 50 years of Greenpeace history
