

The Opening Of The Field

John SINNOTT (Lieutenant.)

The Opening Of The Field:

The Opening of the Field Robert Duncan,1969 **The Open Field System and Beyond** Carl J. Dahlman,1980-05-15
In this book Professor Dahlman applies modern economic methodology to an old historical problem He demonstrates how the quaint institutions of the ancient English open field system of agriculture can be understood as an intelligent and rational adaptation to a particular problem of production and to certain historical circumstances He argues that the two major characteristics of this type of agriculture scattered strips owned by individual peasants and extensive areas of common land both fulfilled vital economic functions This overturns the traditional view of the open field system as inefficient and rigidly bound by tradition and throws light on the behaviour of medieval peasants Professor Dahlman also offers some generalisations about the economic theory of institutions and institutional change refuting the idea that an economic analysis of institutions must necessarily be deterministic As a challenge to some of the fundamental criticisms of the application of economic theory to historical problems the book will be of great interest to agrarian historians and to economic historians generally as well as to specialists in the medieval period **The Field Artillery Journal** ,1930 **Railway Age** ,1926
