**The Book of the Thin Red Line** Sir Henry John Newbolt, 1915

*The Open Future* Patrick Todd, 2021-09-02 In *The Open Future* Why Future Contingents are all False Patrick Todd launches a sustained defense of a radical interpretation of the doctrine of the open future He argues that all claims about undetermined aspects of the future are simply false Todd argues that this theory is metaphysically more parsimonious than its rivals and that objections to its logical and practical coherence are much overblown Todd shows how proponents of this view can maintain classical logic and argues that the view has substantial advantages over Ockhamist supervaluationist and relativist alternatives Todd draws inspiration from theories of neg raising in linguistics from debates about omniscience within the philosophy of religion and defends a crucial comparison between his account of future contingents and certain more familiar theories of counterfactuals Further Todd defends his theory of the open future from the charges that it cannot make sense of our practices of betting makes our credences regarding future contingents unintelligible and is at odds with proper norms of assertion In the end in Todd's classical open future we have a compelling new solution to the longstanding problem of future contingents

*Theology and the Films of Terrence Malick* Christopher B. Barnett, Clark J. Elliston, 2016-08-12 Terrence Malick is one of the most important and controversial filmmakers of the last few decades Yet his renown does not stem from box office receipts but rather from his inimitable cinematic vision that mixes luminous shots of nature dreamlike voiceovers and plots centered on enduring existential questions Although scholars have thoroughly examined Malick's background in philosophy they have been slower to respond to his theological concerns This volume is the first to focus on the ways in which Malick integrates theological inquiries and motifs into his films The book begins with an exploration of Malick's career as a filmmaker and shows how his Heideggerian interests relate to theology Further essays from established and up and coming scholars analyze seven of Malick's most prominent films *Badlands* 1973 *Days of Heaven* 1978 *The Thin Red Line* 1998 *The New World* 2005
