Against Individualism Henry Rosemont Jr.,2015-03-25 The first part of Against Individualism A Confucian Rethinking of the Foundations of Morality Politics Family and Religion is devoted to showing how and why the vision of human beings as free independent and autonomous individuals is and always was a mirage that has served liberatory functions in the past but has now become pernicious for even thinking clearly about much less achieving social and economic justice maintaining democracy or addressing the manifold environmental and other problems facing the world today In the second and larger part of the book Rosemont proffers a different vision of being human gleaned from the texts of classical Confucianism namely that we are first and foremost interrelated and thus interdependent persons whose uniqueness lies in the multiplicity of roles we each live throughout our lives This leads to an ethics based on those mutual roles in sharp contrast to individualist moralities but which nevertheless reflect the facts of our everyday lives very well The book concludes by exploring briefly a number of implications of this vision for thinking differently about politics family life justice and the development of a human centered authentic religiousness This book will be of value to all students and scholars of philosophy political theory and Religious Chinese and Family Studies as well as everyone interested in the intersection of morality with their everyday and public lives
