Things Are Meaning Less:

Philosophy in a Meaningless Life James Tartaglia, 2015-12-17 *Philosophy in a Meaningless Life* provides an account of the nature of philosophy which is rooted in the question of the meaning of life It makes a powerful and vivid case for believing that this question is neither obscure nor obsolete but reflects a quintessentially human concern to which other traditional philosophical problems can be readily related allowing them to be reconnected with natural interest and providing a diagnosis of the typical lines of opposition across philosophy's debates James Tartaglia looks at the various ways philosophers have tried to avoid the conclusion that life is meaningless and in the process have distanced philosophy from the concept of transcendence Rejecting all of this Tartaglia embraces nihilism we are here with nothing to do and uses transcendence both to provide a new solution to the problem of consciousness and to explain away perplexities about time and universals He concludes that with more self awareness philosophy can attain higher status within a culture increasingly in need of it

The Definition of the Thing John William Miller, 1983-02 *The Definition of the Thing* is John William Miller's Harvard dissertation of 1922 In this unusually provocative and original essay Miller had already worked out a number of the basic contentions of his mature philosophy

Things Are Meaning Less Al Burian, 2003 This brilliant new book by Al Burian is a collection of comics drawings and handwritten text that together create a poignant and cohesive narrative Covering Al's days in Portland moving to Providence and a walking tour of his hometown this book is replete with Al's musings over life's little intricacies and meaning as well as the mental processes of growing up

The Joke of Reality Tristan Burt, 2025-05-06 In his *Critique of Pure Reason* Immanuel Kant noted that the understanding intuits nothing Now the significance of this insight comes to light Tristan Burt explains why our intuition of nothing resolves a central philosophical problem how can we know what is absolutely real The answer to this question is as surprising and amusing as reality itself
