Thinking Feminist:

Talking Back Bell Hooks, 2014-10-28 In childhood bell hooks was taught that talking back meant speaking as an equal to an authority figure and daring to disagree and or have an opinion In this collection of personal and theoretical essays hooks reflects on her signature issues of racism and feminism politics and pedagogy Among her discoveries is that moving from silence into speech is for the oppressed the colonized the exploited and those who stand and struggle side by side a gesture of defiance that heals making new life and new growth possible

The Genealogy of Modern Feminist Thinking

Ingeborg W. Ovesen, 2021-03-25 Within much contemporary feminist theory there is a tendency to forget or ignore its own historicity and consider itself as primarily oriented towards the present This book explores the historical roots of some of feminism's central concepts and debates examining the philosophical conditions for feminist thought and taking as its point of departure the dynamic relationship between feminist thought and the history of philosophy With close attention to the genealogy of key concepts such as equality sex gender and difference alongside discussions of contemporary gender equality policy and contextual understandings of central figures including Wollstonecraft Beauvoir and Irigaray The Genealogy of Modern Feminist Thinking provides an analysis of feminism from its origins in the Early Modern period to its contemporary post modern forms Shedding light on feminism as a product of Modernity and establishing it as part of the canon of European intellectual development this book thus corrects the picture of feminism as a phenomenon that lacks historical continuity revealing a history characterized by breaks setbacks and forgetting in which the forgetting itself forms part of a rich genealogy As such it will be of interest to philosophers sociologists political theorists and intellectual historians alike

Black Feminist Thought Patricia Hill Collins, 2000 In spite of the double burden of racial and gender discrimination African American women have developed a rich intellectual tradition that is not widely known In Black Feminist Thought Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African American women outside academe She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis bell hooks Alice Walker and Audre Lorde The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought

Introducing Contemporary Feminist Thought Mary Evans, 2013-07-03 This introductory textbook offers a concise and lucid account of the main developments in contemporary feminist thinking and demonstrates the centrality of feminist thought to all areas of intellectual enquiry In a wide ranging discussion Evans argues that most accounts of the world since the Enlightenment have been constructed in terms of a distinction between the public and the private which excluded women Using both historical and more recent examples she examines the breadth and complexity of feminist thinking focusing on key themes such as the body representation engendering knowledge and the relationship between women and the state Evans argues that feminist thought seeks less to add to existing theory than to re theorize the social and symbolic worlds no contemporary account of these worlds she suggests is complete without a discussion of the
