Thinking Eye The Seeing Brain:

The Thinking Eye, the Seeing Brain James T. Enns, 2004 The Thinking Eye the Seeing Brain is the first modern visual cognition survey text written especially for undergraduates available now at a uniquely affordable price **Seeing and Thinking** William Kingdon Clifford, 1880 **Artifice and Design** Barry Allen, 2011-03-15 As familiar and widely appreciated works of modern technology bridges are a good place to study the relationship between the aesthetic and the technical Fully engaged technical design is at once aesthetic and structural In the best work the best design the most well made the look and feel of a device its aesthetic perceptual interface is as important a part of the design problem as its mechanism the interface of parts and systems We have no idea how to make something that is merely efficient a rational instrument blindly indifferent to how it appears No engineer can design such a thing and none has ever been built from Artifice and Design In an intriguing book about the aesthetics of technological objects and the relationship between technical and artistic accomplishment Barry Allen develops the philosophical implications of a series of interrelated concepts knowledge artifact design tool art and technology and uses them to explore parallel questions about artistry in technology and technics in art This may be seen at the heart of Artifice and Design in Allen s discussion of seven bridges he focuses at length on two New York bridges the Hell Gate Bridge and the Bayonne Bridge and makes use of original sources for insight into the designers ideas about the aesthetic dimensions of their work Allen starts from the conviction that art and technology must be treated together as two aspects of a common technical human nature The topics covered in Artifice and Design are wide ranging and interdisciplinary drawing from evolutionary biology cognitive psychology and the history and anthropology of art and technology The book concludes that it is a mistake to think of art as something subjective or as an arbitrary social representation and of Technology as an instrumental form of purposive rationality By segregating art and technology Allen writes we divide ourselves against ourselves casting up self made obstacles to the ingenuity of art and technology **The Black Son** D.
