

# UNHELPFUL THINKING STYLES

## PREDICTIONS

I make negative predictions about what might happen in the future even though I have no way of knowing this.

I will fail my Maths test

## JUDGEMENTS

I make judgements about things even though there is no evidence or facts to back this up.

They looked at me funny

## CATASTROPHISING

I always think of the worst case scenario or think that something really bad is going to happen.

The car is going to crash

## PERFECTIONIST

I put a lot of pressure on myself to do well and set unrealistically high expectations for myself. I think everything has to be exactly right.

I have to get full marks

## NEGATIVE GLASSES

When I have my negative glasses on, I only see the bad things that happen and I don't notice any of the good things.

Today has been awful

## FEELINGS

If I notice negative feelings in myself or my body and automatically think that it means something bad is happening or will happen.

I feel bad so my day will be bad

## MENTAL FILTER

I tend to take more notice of the negative things in a situation and down play the positive things.

I can't believe I only got 8 out of 10

## MEMORIES

Some things trigger my negative memories which makes me think something bad will happen again now.

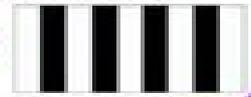

Something bad happened here so it will again

## BLACK & WHITE THOUGHTS

I usually think things are either really good or really bad and there is no in between.

I lost so I am terrible at this game

## MIND READING

I assume I know what other people are thinking and this is usually negative things about me.

They think I look silly

## COMPARE & DESPAIR

I notice positive things about other people but then compare myself negatively to them and think others are better than me.

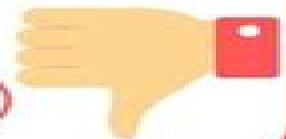

Why can't I be as smart as them?

## SELF-CRITICAL

I am very critical of myself and my abilities.

I can't do this because I am not smart
