**Wrongs and Remedies in the Twenty-first Century** Society of Public Teachers of Law (London, England), 1996 When potential litigants first approach a lawyer they are generally interested in finding out one thing only are they likely to be able to win damages or any other kind of remedy and what kind of quantum of damages are they likely to receive It becomes the lawyer s main task to try to argue for a remedy and to persuade the court that the plaintiff has a good cause of action Textbooks about contract and tort frequently treat damages and other remedies as an after thought when in fact it is the issue of remedies which is a constant and ever present consideration for the plaintiff and his or her lawyer This new book containing contributions from many of the UK s leading specialists brings to the fore a range of issues which are of topical interest to litigators and to teachers of law In some instances the issues are currently the subject of reform proposals and these essays usefully highlight the principal issues facing the reformers and the objections which have been raised by those opposed to reform In addition four of the essays tackle a strand of tort law which is of rapidly growing importance the area of professional negligence The contributors are among the best known writers in this field and their essays combine practical and academic perspectives which usefully highlight contemporary trends in professional negligence litigation The first chapter in the book also offers a unique and controversial overview of tort law in the UK by Professor Patrick Atiyah who argues for a complete rethink of the system of personal injuries litigation in the UK starting with its abolition Not for the first time Professor Atiyah thinks the unthinkable *Thinking the Unthinkable* Nik Gowing, 2015 Thinking The Unthinkable is a rolling ongoing dynamic investigation into why leaders have appeared more unable or unwilling than ever to anticipate the biggest issues of our time Since 2014 these have included the new assertiveness of President Putin s Russia the rise of so called Islamic state the sudden oil price crash growing cyber vulnerability and the exponential growth in mass migration and people movements In an era of wicked problems why are current leadership behaviours and culture apparently not fit for purpose What are the causes of so many failures in policy and strategic forecasting Are they human frailties Or are they systemic failures to embrace smartly new realities These critical questions were put in extended confidential interviews with over 60 C suite executives and senior public servants Hundreds more have been engaged in conversations and conference sessions since early 2015 **The Canada-US Border in the 21st Century** John B.
