The Thirteen Colonies Louis B. Wright,2014-10-01 If the origin of the colonial period was accidental the ending was not The representatives of the thirteen colonies who approved the Declaration of Independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking The events that led to their decision took place over a period of nearly 300 years Looking back the wonder is that it culminated so quickly For a century after its discovery

the New World was little more than a lode to be mined by adventurers seeking profits. It wasn't until the end of the sixteenth century that serious efforts were made to establish permanent colonies. Even then the perils of the journey and threats of starvation inhibited settlement. But settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land. They were a mixed lot: English Separatists from Leiden, French Huguenots, Dutch burghers, Mennonite peasants from the Rhine Valley and a few gentleman Anglicans. But they shared a quality of toughness. Here is their story from award-winning historian Louis B. Wright. *The Founding of a Nation* Elizabeth Richards, 2017-07-03. The story of our country really began way back in the history of England in the year 1215 when King John of England was forced by some of his barons to sign a document called the Magna Carta. This document among other things prevented the king from taxing the barons without their consent. King John had driven England nearly to bankruptcy because he spent so much money to fund his continual participation in the Crusades. The Crusades were a period in history when Christian knights tried to take back the Holy Land which had been conquered by the Muslims. The barons were tired of being taxed to pay for his wars. This document was essentially a document in medieval times to clarify the differences between the three powers in England at the time: the Catholic Church, the king, and the barons. This is an important document because it was the first time in history that people other than the king or the church were given some powers. It did nothing about grant rights to the peasants and the merchant class. This is important because it was the very first time in the history of the world that the king and the church had their powers curbed. Not one other country in the world at this time had a Magna Carta, many still don't, and this is important because it was the English who were the first ones to colonize the areas of our country which was first known as the thirteen colonies. These colonists brought with them these truly revolutionary ideas of individual freedom. [The Thirteen Colonies](#) Brendan January, 2001-03. Examines the creation of the original thirteen colonies in the United States from the failed colony of Roanoke in 1587 to the formation of the Georgia colony in 1733. *The Making of the United States from Thirteen Colonies: Through Primary Sources* John Micklos, Jr., 2013-01-01. Winning the American Revolution was just the first step. After defeating Great Britain the American colonies were united in name only. How would this independent nation be governed? During the summer of 1787 representatives went to Philadelphia to solve the problem. The result: the U.S. Constitution created a new government establishing the foundations of a free nation and setting a new course for history.
