*Circular Economy and Green Transition in the Global South* Anwesha Borthakur, Pardeep Singh, 2025-09-26 This book is an attempt to address circular economy and green transition potentials and implications with a particular focus on the Global South Circular economy and green transition have been central themes of environmental policymaking during the recent decades both in the Global North and the Global South However the focus and attention on the topics among the research community have been relatively recent in the emerging economies and developing countries in the Global South The term circular economy refers to an economic model that aims to minimize waste make the most of resources and promote sustainability throughout the entire lifecycle of products and materials Unlike the traditional linear economy which follows a take make dispose pattern the circular economy seeks to create a closed loop system where resources are reused and recycled The term green transition on the other hand refers to a comprehensive and

systemic shift from an economy that heavily relies on fossil fuels and environmentally destructive practices to one that is sustainable eco friendly and focused on addressing global climate change implications Green transition is often considered as a critical approach to achieve a sustainable future and mitigate the adverse impacts of climate change Circular economy and the green transition are complementary approaches that when integrated can lead to a robust sustainable global economy Both concepts acknowledge the interconnectedness of environmental economic and social facets and highlight the significance of a systematized change to achieve a better future We can consider circular economy as a subset of green transition where both share the overarching goal of fostering sustainability and mitigating detrimental environmental impacts

**Ethical Marketing and The New Consumer** Chris Arnold,2009-10-27 What was once just the desire of a few has now become a mass movement The everyday shopper may still be searching out the value items but now they are also questioning the ethics of products and brands Ethical products are increasing in sales year on year and those brands that have ignored it as a value are paying in reduced sales Empowered the new consumer is using the pound in their pocket to make a point not just a purchase But ethical marketing isn t just about environmentalism it s far bigger than that This book challenges a lot of conventional thinking and introduces you to a wider range of ethics and the many types of ethical consumers As a brand manager or producer it ll give you useful tools to help you understand your Key Ethical Values How to market and sell them It ll blow away a few myths and probably surprise you with a few new facts and statistics It looks at the positive and negative sides of big brands And how to avoid greenwash ethicalwash and becoming a victim of Brand Terrorism A must for anyone in the eco ethical market or who wants to enter it An essential guide to understanding the new consumer and why they buy what they buy and what they don t The book comes with a support website [www.ecoethicalmarketing.info](http://www.ecoethicalmarketing.info) to allow comment feedback links and brands to publish their own case studies
