Travels Of An Iconoclast Harve E. Rawson, Ph.D.,2005-08-30 Travel is eye opening educational and sometimes mind blowing At best travel experiences question everything you thought was sacred challenges many facts you thought represented truth makes you self examine many of your personal values and confronts head on the bullshit you ve been fed by our politicians the media and American corporate interests Vanuatu is NOT like it was shown on the American TV show the Survivors Vanuatu The Philippines is NOT the happy little democracy we organized for them in 50 years of exploitative colonial rule Sri Lanka is NOT contented tea pickers in brightly colored sarongs Nor is Malaysia a sleepy little third world country of a few rubber plantations left by the British Instead we find Panamanians never signed any agreement to let us build a canal through their country that the world s biggest democracy India is residing in rotting buildings left by the British raj that the two Middle Eastern countries with the least trouble and the greatest progress are ruled by total autocrats that Tongans view American sports as selfish and laugh at our motivational courses that many Alaskan natives owned slaves four decades after the Emancipation Proclamation and that Santa Claus prefers a pint of gin rather than a glass of milk in New Zealand The author an award winning college professor of psychology who loves to travel is witty insightful and optimistic yet as he says an iconoclast

Mobility and Travel in the Mediterranean from Antiquity to the Middle Ages Renate Schlesier,2004 The Mediterranean world is a model that serves the analysis of the dynamic process of cultural identity through approximation and differentiation through openness and self assertion through a constant contact by way of travel to foreign regions cultures and societies For ancient Greek culture mobility seems to be a specific characteristic The same can be said for the Christian Judaic and Islamic Middle Ages however under different or changed circumstances This publication presents the contributions to an international workshop in cultural analysis which focused on mobility as a proof of the historical flexibility of Mediterranean cultural systems
