A More Charitable Atheism James A. Metzger, 2019-10-04 This anthology consists of fourteen topically arranged essays that explore a form of humanism characterized by epistemic humility a progressive ethical orientation as well as a respect for the positive features of religion According to recent polls more Americans find themselves uncomfortable maintaining traditional religious beliefs and moral commitments a trend driven in large part by the Millennials and one likely to continue with subsequent generations As a professor who has regular interactions with students of this generation the author has discovered that those who neither wish to affiliate with one particular religious tradition or community as perhaps their parents and grandparents did nor drop religion altogether fear that there are few if any truly attractive alternatives alternatives that would help them find meaning offer sound moral guidance and navigate life s most challenging times This book in part aims to show that both meaning and resources for crafting a philosophically sound moral compass can be found outside the sacred canopy These essays however are also the outcome of the author s own journey from mainline Protestant Christianity to secular humanism The primary catalyst for this transition was the onset of a serious autoimmune illness which forced him to confront various issues in philosophy of religion particularly the problem of suffering and evil This autobiographical component is woven into several chapters with the intention of showing that in a postmodern milieu we can no longer attribute major worldview shifts to solitary dispassionate rational inquiry Although essays have been composed in such a way that each may stand alone a feature of the book that allows readers to approach chapters in any order they choose they nevertheless have been arranged into four sections that reflect the author s personal journey Major topics include 1 Chronic Illness and the Death of God 2 Epistemic Limitations and Respect for Persons 3 A Humanist Approach to Reading the Bible and 4 Advantages of Ethical Reasoning without God

Science and Narratives of Nature

Jobin M. Kanjirakkat, Gordon McOuat, Sundar Sarukkai, 2017-07-05 The discourse and practice of science are deeply connected to explicit and implicit narratives of nature. However, nature has been understood in diverse ways by cultures across the world. Could these different views of nature generate the possibility of alternate views on science? Part of the innovative series Science and Technology Studies, this volume looks at different conceptualizations of nature and the manner in which they structure the practice of the sciences. The essays draw upon philosophy, history, sociology, religion, feminism, mathematics, and cultural studies and establish a dialogue between cultures through a multi-disciplinary exploration of science. With contributions from major scholars in the field, this volume will deeply interest scholars and students of science and technology studies, sociology, history, and philosophy of science, as also environmental studies. **Real Indians** Eva Garrouette, 2003-07-31 At the dawn of the twenty-first century, America finds itself on the brink of a new racial consciousness. The old unquestioned confidence with which individuals can be classified as embodied, for instance in previous U.S. census categories, has been eroded. In its place are shifting paradigms and new norms for racial identity. Eva Marie Garrouette examines the changing processes of racial identification and their implications by looking specifically at the case of American Indians. **The Kpim of Feminism** Uzoma Ukagba George Uzoma Ukagba, George Uzoma Ukagba, 2010-02 The idea behind The Kpim of Feminism was rooted in the mind of Fada Iroegbu in 2004 following a friendly but heated argument he had with Mrs. Wioletta Ukagba, the wife of one of the current co-editors of this book, who challenged Fada Iroegbu to direct his sharp brain and pen to the defence of women, especially the Nigerian women who were and still are passing through various kinds of transvaluation of values, economic exploitation, cultural and scientific manipulations, political marginalization, and irredentism, and various shades of sexualisation, harassment, exploitation, and commercialization. Fada Iroegbu took up this challenge to kpinimize womanhood but unfortunately was unable to completely realise his dream before death struck. As it is with many great and indefatigable minds or thinkers who left behind unfinished works, we, his friends, family, interlocutors, well-wishers, men, and women of good will, have come together to actualize one of his felt knowledge dreams. The fight for equality between women and men can sometimes not only be exaggerated but also plunged in controversy we cannot fathom. The search for the truth about the relationship that ought to exist between male and female should constitute The Kpim of Feminism. Dr. George Uzoma Ukagba, Editor, University of Benin. In light of the word feminism conjuring up different images to different people, The Kpim of Feminism reflects the sensitivity and objectivity to the concept of feminism by scholars drawing from their fields and life experiences. The book insists that women and men be encouraged to emancipate and empower one another together. Dr. Obioma Des Obi, Editor, Imo State University. The Kpim of Feminism, a rare harvest of academic erudition from across the globe, showcases the different modalities from which issues, theories, and debates on feminism and other gender-related polemics, past, present, and future, could be considered. Dr. Iks J. Nwankwor, Editor, University of Uyo. Without mincing words, this book is a welcome intellectual assembly and has come out at the right time with deep critical insights and
