Although considered a minor genre for a long time the art of landscape has risen above its forebears religious and historic painting to become a genre of its own Giorgione in Italy the Brueghels of the Flemish School Claude Lorrain and Poussain of the French School the Dutch landscape painters and Turner and Constable of England are just a few of the great landscapists who have left their indelible mark on the history of landscape and the art of painting as a whole After serving for a long time as a backdrop for paintings and as a skill practising exercise for artists nature came to be observed for its own sake and was incorporated into works of art as an illustration of an enlightened and scientific study of the world Through continual change it has inspired the greatest painters and has allowed some others like Turner to transcend the relentless search for mere realism in pictorial representation Through this study mile Michel offers an exceptional panorama from the 15th century to the present of art and the way artists portray the world in all its splendour    **Extension Bulletin** ,1930    **The Surveyor & Municipal & County Engineer** ,1924    **Surveyor and Municipal and County Engineer** ,1924    **The Perry Magazine** ,1900    Horticulture ,1909    *Parties* ,1929
