Wreck Ashore is a short D&D adventure for four 1st-level player characters (PCs). The scenario takes place on and around a swampy peninsula that juts out from a longer stretch of coastline. Along one side of this peninsula stretches a dangerous reef. Just offshore on the reef side stands a lighthouse built to warn ships of the danger. At the base of the peninsula on the side away from the reef is a small port town called Seawell.

To get a good feel for this area, look at a map of Florida and imagine that the state is only about 50 miles long and 50 miles wide. The lighthouse is just off the coast near St. Augustine, and Seawell lies on the coast just south of Tallahassee. This peninsula juts out from a longer coastline.

The scenario can be placed on any coastal peninsula that features a reef. As always, feel free to adapt the material presented here as you see fit to make it work with your campaign.
