

Teaching Left-Handed Writing

- ▶ Grip the pencil 2.5cm (1 inch) to 3.8cm (1.5 inch) from the point,
- ▶ Tilt paper so that arm is at right-angle to bottom edge of paper (and top right corner of page is toward writer),
- ▶ Keep the *wrist straight* (not bent) and *below writing line*, with the arm roughly parallel to the left edge of the paper.

Writing with the left hand is *not* just the opposite from writing right-handed. If a child is only permitted to write with the left hand but not *taught* how to write, s/he may develop a needlessly uncomfortable, inefficient, slow, or messy way of writing that will be a lifelong hardship. For example, some children adopt a "hooked" posture trying to see what they are writing and not smear what was just written, but both problems are better overcome by proper paper positioning and pencil grip. Right-biased school desks can also cause many problems for left-handers.

Writers On The Left:

Writers on the Left Daniel Aaron, 1992 *Writers on the Left* chronicles the involvement of American writers with the progressive and radical movement from its bohemian origins in 1912 to its disillusionment and demise in the early 1940s Aaron creates a perceptive and often poignant portrait of writers such as Max Eastman and Floyd Dell who tried to wed the seemingly conflicting impulses behind the need for uninhibited artistic expression and to abolish the inequalities of class and race

Writers on the Left Daniel Aaron, 1969 *Feminism, the Left, and Postwar Literary Culture* Kathlene McDonald, 2012 A cultural history of women writers on the Left and the roots of feminist literary criticism *A History of Contemporary Chinese Literature* Zicheng Hong, 2007-10-15 This groundbreaking book by the eminent Peking University professor Hong Zicheng covers the literary scene in China during the 1949-1999 period primarily focusing on fiction poetry drama and prose writing Reprinted sixteen times since its publication in the PRC in 1999 it is now available in English translation at last The first section of the book deals with the 1949-1976 period Often derided and ignored as an arid era for literature by both Chinese and overseas critics Professor Hong describes the literature that was popular and officially acceptable at the time and the cultural policies and political campaigns that shaped the tastes of readers and the literary creativity of writers during the period This part of the book is remarkable for Professor Hong's candidness and open mindedness qualities that would have made this text difficult to publish at an earlier date in China Furthermore the platform that the first part of the text provides renders the second part even more understandable to readers unfamiliar with the post-1976 literary scene and offers new insights to those who are familiar with it demonstrating as it does the close links between the two distinctive eras These links are provided by the resumption of literary traditions that had been more or less abandoned during the preceding ten year period as well as reactions against literature nurtured and guided by the state cultural apparatus The second part of the book consists of a comprehensive description of developments and insightful explanations of those developments in the literary arts and literary criticism since 1976 A unique and much needed accomplishment in contemporary literary studies Also available in paperback

The Other Blacklist Mary Helen Washington, 2014-04-08 Mary Helen Washington recovers the vital role of 1950s leftist politics in the works and lives of modern African American writers and artists While most histories of McCarthyism focus on the devastation of the blacklist and the intersection of leftist politics and American culture few include the activities of radical writers and artists from the Black Popular Front Washington's work incorporates these black intellectuals back into our understanding of mid twentieth century African American literature and art and expands our understanding of the creative ferment energizing all of America during this period Mary Helen Washington reads four representative writers Lloyd Brown Frank London Brown Alice Childress and Gwendolyn Brooks and surveys the work of the visual artist Charles White She traces resonances

of leftist ideas and activism in their artistic achievements and follows their balanced critique of the mainstream liberal and conservative political and literary spheres Her study recounts the targeting of African American as well as white writers during the McCarthy era reconstructs the events of the 1959 Black Writers Conference in New York and argues for the ongoing influence of the Black Popular Front decades after it folded Defining the contours of a distinctly black modernism and its far ranging radicalization of American politics and culture Washington fundamentally reorients scholarship on African American and Cold War literature and life

Literary Passports Shachar Pinsker,2010-12-13 Literary Passports is the first book to explore modernist Hebrew fiction in Europe in the early decades of the twentieth century It not only serves as an introduction to this important body of literature but also acts as a major revisionist statement freeing this literature from a Zionist nationalist narrative and viewing it through the wider lens of new comparative studies in modernism The book s central claim is that modernist Hebrew prose fiction as it emerged from 1900 to 1930 was shaped by the highly charged encounter of traditionally educated Jews with the revolution of European literature and culture known as modernism The book deals with modernist Hebrew fiction as an urban phenomenon explores the ways in which the genre dealt with issues of sexuality and gender and examines its depictions of the complex relations between tradition modernity and religion
