

Writings on *Music*
1965–2000

Steve Reich

EDITED WITH AN INTRODUCTION BY PAUL HILLIER

Writings On Music 1965 2000

Alexander Rehding

Writings On Music 1965 2000:

Writings on Music, 1965-2000 Steve Reich, 2002-04-11 In the mid 1960s Steve Reich radically renewed the musical landscape with a back to basics sound that came to be called Minimalism These early works characterized by a relentless pulse and static harmony focused single mindedly on the process of gradual rhythmic change Throughout his career Reich has continued to reinvigorate the music world drawing from a wide array of classical popular sacred and non western idioms His works reflect the steady evolution of an original musical mind Writings on Music documents the creative journey of this thoughtful groundbreaking composer These 64 short pieces include Reich s 1968 essay Music as a Gradual Process widely considered one of the most influential pieces of music theory in the second half of the 20th century Subsequent essays articles and interviews treat Reich s early work with tape and phase shifting showing its development into more recent work with speech melody and instrumental music Other essays recount his exposure to non western music African drumming Balinese gamelan Hebrew cantillation and the influence of these musics as structures and not as sounds The writings include Reich s reactions to and appreciations of the works of his contemporaries John Cage Luciano Berio Morton Feldman Gyorgy Ligeti and older influences Kurt Weill Schoenberg Each major work of the composer s career is also explored through notes written for performances and recordings Paul Hillier himself a respected figure in the early music and new music worlds has revisited these texts working with the author to clarify their central narrative the aesthetic and intellectual development of an influential composer For long time listeners and young musicians recently introduced to his work this book provides an opportunity to get to know Reich s music in greater depth and perspective

Historical Performance and New Music

Rebecca Cypess, Estelí Gomez, Rachael Lansang, 2023-11-30 The worlds of new music and historically informed performance might seem quite distant from one another Yet upon closer consideration clear points of convergence emerge Not only do many contemporary performers move easily between these two worlds but they often do so using a shared ethos of flexibility improvisation curiosity and collaboration collaboration with composers past and present with other performers and with audiences Bringing together expert scholars and performers considering a wide range of issues and case studies Historical Performance and New Music the first book of its kind addresses the synergies in aesthetics and practices in historical performance and new music The essays treat matters including technologies and media such as laptops printing presses and graphic notation new music written for period instruments from natural horns to the clavichord personalities such as the pioneering singer Cathy Berberian the musically omnivorous ensembles A Far Cry and Roomful of Teeth and composers Luciano Berio David Lang Molly Herron Caroline Shaw and many others Historical Performance and New Music presents pathbreaking ideas in an accessible style that speaks to performers composers scholars and music lovers alike Richly documented and diverse in its methods and subject matter this book will open new conversations about contemporary musical life

Musical Composition in the Context of Globalization Christian Utz, 2021-03-15 Since the early transformation

of European music practice and theory in the cultural centers of Asia Latin America and Africa around 1900 it has become necessary for music history to be conceived globally a challenge that musicology has hardly faced yet This book discusses the effects of cultural globalization on processes of composition and distribution of art music in the 20th and 21st century Christian Utz provides the foundations of a global music historiography building on new models such as transnationalism entangled histories and reflexive globalization The relationship between music and broader changes in society forms the central focus and is treated as a pivotal music historical dynamic

[A Theory of Minimalism](#) Marc Botha,2017-10-19 The explosion of minimalism into the worlds of visual arts music and literature in the mid to late twentieth century presents one of the most radical and decisive revolutions in aesthetic history Detested by some embraced by others minimalism s influence was immediate pervasive and lasting significantly changing the way we hear music see art and read literature In *The Theory of Minimalism* Marc Botha offers the first general theory of minimalism equally applicable to literature the visual arts and music He argues that minimalism establishes an aesthetic paradigm for rethinking realism in genuinely radical terms In dialogue with thinkers from both the analytic and continental traditions including Kant Danto Agamben Badiou and Meillassoux Botha develops a constellation of concepts which together encapsulate the transhistorical and transdisciplinary reach of minimalism Illustrated by a range of historical canonical and contemporary minimalist works of different media from the caves of early Christian ascetics to Samuel Beckett s late prose Botha offers a bold and provocative argument which will equip readers with the tools to engage critically with past present and future minimalism and to recognize how in a culture caught between the poles of excess and austerity minimalism still matters

The Ashgate Research Companion to Minimalist and Postminimalist Music Keith Potter,Kyle Gann,2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo P rt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism s role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy *The Ashgate Research Companion to Minimalist and Postminimalist Music* provides an authoritative overview of established

research in this area while also offering new and innovative approaches to the subject

Sonic Poetry Marc Matter, 2026-02-02 This interdisciplinary study focuses on sonic poetry an experimental artistic practice in the post digital era It discusses a transmedial language based sound art according to literary concepts as well as media theory linguistics and sound studies The book explores how digital and media technologies shape the creation of experimental sound works Offering a framework it categorizes the large variety of production methods applied by artists such as editing mixing sampling and coding Drawing on literary concepts like electroacoustic poetry or audioliterary writing it introduces a theory of expanded semantics to analyze the intricate interplay between sound and meaning Four in depth case studies of works by Alessandro Bosetti Dagmara Kraus J rg Piringner and Anja Utler reveal how artists engage in a dynamic and reciprocal relationship with technology transforming it from a mere tool into an active collaborator in the creative process This book aims to fill a gap by reconstructing the evolution of poetry related to sound media and technology Providing compelling insights into the innovative tendencies of artistic production it also sheds light on issues of culture and society in the twenty first century

Music, Encounter, Togetherness Nicholas Cook, 2024-04-23 Modern Western musical thought tends to represent music as a thing a pattern a structure even an organism than as a human practice Music Encounter Togetherness focusses on music as something people do as a mode of encounter between individuals and cultures and as an agent of interpersonal and social togetherness It presents music as a utopian dimension of everyday life

Writings on Music, 1965-2000 Steve Reich, 2002 The writings include Reich s reactions to and appreciations of the works of his contemporaries John Cage Luciano Berio Morton Feldman Gyorgy Ligeti and older influences Kurt Weill Schonberg Each major work of the composer s career is also explored through notes written for performances and recordings Jacket

The Oxford History of Western Music: The late twentieth century Richard Taruskin, 2005

The New Grove Dictionary of Music and Musicians Stanley Sadie, John Tyrrell, 2001

The World of Music David Willoughby, 2006 The World of Music is a music listening book designed for the growing number of teachers who want to focus on listening to music as it exists in the real world of their students Expanding the traditional repertoire used for music study this popular text begins with American folk religious jazz popular and ethnic music before introducing some world music and concluding with a thorough overview of Western classical music The approach captures the essence of each repertoire and equips students to recognize different styles appreciate their different functions and possess a solid foundation for a lifetime of musical appreciation The text also introduces students to the many styles of music currently enjoyed by people in the United States and helps them to appreciate the diverse roots of these styles In addition the text encourages its readers to appreciate different cultures around the world through an encounter with their music

The New Grove Dictionary of Music and Musicians: Recitative to Russian Federation, I Stanley Sadie, 2001

Audio Culture Christoph Cox, Daniel Warner, 2004 With contributions by major composers and writers this text presents an essential overview of the changing terrain of experimental music both pop and

classical **Music Theory and Contemporary Music** Alexander Rehding,2006 *Musicworks* ,2003 The Penguin Companion to Classical Music Paul Griffiths,2005 This work explores the lives and achievements of figures in the field of music discusses individual works offers plot synopses of operas and ballets and considers the careers of major performers It looks at historical movements and trends the evolution of musical instruments and the development of different forms of music explains the vocabulary of classical music and the technical terms that describe how works are written and performed **Contemporary Authors New Revision Series** ,2003 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers *The Unknown Paul McCartney* Ian Peel,2002 Immortalized in music s pantheon ex Beatle Paul McCartney nevertheless remains one of the least fully appreciated of modern icons Now music journalist Ian Peel looks at McCartney s surprisingly rich contribution to avant garde music For over three decades Paul McCartney has initiated and participated in projects that have taken him far from the kind of music associated with the Beatles Wings and his career as a solo artist From as far back as the mid sixties there have been experimental solo projects both under his own name and incognito Among these are the Beatles legendary Carnival of Light the Percy Thrillington diversion in the seventies and the recent Fireman dance CDs as well as less publicized activities all of which Ian Peel fully details here for the first time In writing this book Peel interviewed many of the musicians who have worked closely with McCartney including Thrillington mainspring Richard Hewson bassist Herbie Flowers psychedelic artist David Vaughan Gong s David Allen and Frank Zappa collaborator Mike Keneally What emerges is a unique insight into Paul McCartney s little known contribution to avant garde music Ian Peel is a British music journalist with a special interest in digital dance music and other experimental forms More Than Music Anne Fraioli,2006 The Bulletin of the Society for American Music ,2004

Thank you entirely much for downloading **Writings On Music 1965 2000**. Most likely you have knowledge that, people have look numerous times for their favorite books considering this Writings On Music 1965 2000, but end going on in harmful downloads.

Rather than enjoying a fine book bearing in mind a mug of coffee in the afternoon, then again they juggled taking into consideration some harmful virus inside their computer. **Writings On Music 1965 2000** is available in our digital library an online access to it is set as public therefore you can download it instantly. Our digital library saves in fused countries, allowing you to get the most less latency period to download any of our books once this one.
