Stolen Writings:

Stealing Books in Eighteenth-Century London Richard Coulton, Matthew Mauger, Christopher Reid, 2016-11-07 This study offers an authoritative and readable account of the hidden history of book theft in eighteenth century London It exploits a rich primary source the compelling narratives of crime contained in the digitised Proceedings of the Old Bailey The authors explain how cases of book theft came to court and how in the ensuing trials the nature of the book itself became a question for legal debate They assess the motives which led Londoners to steal books and the methods they employed in thefts from households and booksellers Finally the authors ask what the Proceedings tells us about the social ownership of books and how the phenomenon of book theft differently affected book producers and consumers Stealing Books in Eighteenth Century London will appeal to readers interested in the connected histories of metropolitan life crime and the book in this period and in the uses of digital resources in humanities research
