Ancient Building Technology, Volume 3: Construction (2 Vols) G.R.H. Wright,2009-11-23 Building construction is the subject of this third part of the Ancient Building Technology set dealing with the history of building and building materials Beginning with the formulation of a project it goes on to discuss preliminary site surveying and setting out followed by building site development and its attendant installations and then examines the disposition of the various building materials in building construction from pre history to the end of antiquity Current Business Reports ,2003 Ancient Building Technology, Vol. 2: Materials G.R.H. Wright,2023-03-20 This r sum study deals with building material which together with construction and structures forms one of the three aspects of building or equally one of the three factors which constitute the nature of a building Unlike existing manuals on ancient building this offers an analytic presentation and the subject matter extends across all ages and regions The treatment of materials is set out according to a paradigm of nature manufacture and use so as to facilitate direct comparison between different modes of the one material as also between different materials and between different building traditions This second part is published in two volumes the first containing texts the second more than 300 illustrations The print edition is available as a set of two volumes 9789004140073 *The British Architect* ,1915 *Michigan Manufacturer & Financial Record* ,1916 **The Vermonter** ,1913 **Annual Report** New South Wales. Department of Mines,1890 **Southwest Contractor and Manufacturer** ,1911 **History, Performance and Conservation** Barry Bridgwood,Lindsay Lennie,2013-09-13 Ideal for students of architectural technology this volume of the Technologies of Architecture series covers the technologies available and the processes necessary for the conservation of existing buildings and environments This book provides in a single text the tools for students to be able to evaluate such buildings as well as an extensive understanding of the mechanisms which cause their deterioration and knowledge of the technologies available to correct their status The ever higher standards set for buildings especially in energy conservation contexts demand that practitioners appreciate how the performance of existing structures can be enhanced which is also covered Considering the work of conservation within a holistic perspective and historical context this book is additionally invaluable for architecture and construction students **Annual Mining Report of the Department of Mines and Agriculture [etc.]** New South Wales.
