Stories From The Firestorm:

The Revolution in Transmedia Storytelling through Place Donna Hancox, 2021-02-17 This book proposes that the theory and practice of transmedia storytelling must be re considered from a social impact and community development perspective and that time has come for a rigorous critique of the limited ways in which it has been commonly represented Transmedia storytelling has become one of the most influential and profitable innovations in the field of media and entertainment It has changed the ways audiences interact with films television and web series advertising gaming and book publishing It has also shifted the practices around creation and dissemination of such content This book asserts that the futures of transmedia storytelling for social impact or change are deeply tied to understandings of place grounded in human geography Through a series of case studies of projects which challenge the status quo of transmedia this book explores the elements of transmedia that can be used to amplify under represented voices and make stories that signal a more inclusive and sustainable future This book offers a valuable contribution to the literature in the areas of transmedia storytelling narratology digital fiction electronic literature locative storytelling performative writing digital culture studies and human geography

The Stirling Story Michael J. F. Bowyer, 2002 Conceived in the shadow of looming war when the RAF s bomber force was largely made up of obsolete and outmoded aircraft the Stirling became the first British four engined heavy bomber of the Second World War Developed tested and brought into service in the first desperate years of the Second World War the arrival of the Stirling marked a turning point in the aerial warfare of that conflict the moment when the Allies went on the offensive against the German homeland In the years that followed Stirling squadrons were at the forefront of the developing tactics of the Allied bomber campaign target marking pathfinding electronic navigation the thousand bomber raids etc that were ultimately to lead to the utter devastation of so many German cities Despite this leading role the Stirling has never enjoyed the standing of the Halifax and the even more celebrated Lancaster Handicapped by an unrealistic peacetime design specification it could not match the performance of its more famous successors and was withdrawn from frontline service as deliveries of Lancasters and Halifaxes gathered momentum However even then the Stirling proved to be versatile and adaptable as a glider tug transport in secret SOE operations and later as a civilian transport in the immediate post war years The Stirling Story is the culmination of years of exhaustive research by one of the world s foremost aviation authors From original design specification and testing through its development introduction to service developing marks and later adaptations the full story of the Shorts Stirling bomber is told with the aid of eyewitness accounts from the designers production workers engineers and above all the crews of the Stirling Much more than the history of just one aircraft type The Stirling Story is the story of RAF Bomber Command emerging from obscurity and failure to become a devastatingly effective weapon of war It is an essential work of reference that no serious military aviation enthusiast or war historian can afford to be without as well as a fascinating read for anyone with any interest in or connection with the Shorts Stirling
