Stories That Shape Us:

Searching for the Self Adrian T. Smith, 2018-01-22 Who am I If you are unsure of your personal identity you are not alone Our postmodern culture multiplies identity crisis Identity comes from story the better our story the healthier our identity and our behavior Searching for the Self helps you discover your own story and discern how cultural narratives shape your behavior Channeling the ancient wisdom of classic stories including Christian Scripture viewed as true story this book offers hope to anyone searching for a better story to live by Searching for the Self provides a groundbreaking synthesis of narrative psychology cultural analysis biblical studies and English Literature 101 all written in an engaging style and interwoven with revealing personal anecdotes

Shaped by the Story Michael Novelli, 2013-10-15 After more than a decade in youth ministry Michael Novelli felt like he'd tried everything to connect his students to the Bible Then a missionary introduced him to the art of Bible storying an imaginative way to engage in the scriptures through storytelling creative reflection and dialogue He soon discovered that Bible storying was not only an effective teaching approach but a powerful way to awaken people to new purpose and identity rooted in the biblical narrative In 2012 Michael partnered with Sparkhouse to create Echo the Story curriculum based on his approach to Bible storying Michael has seen people of all ages benefit from this imaginative way of encountering God through the Bible In this book you'll find methods for adapting Bible storying for varied contexts and ages testimonials from people using this approach tools to create your own Bible storying narratives and details about the proven learning theories guiding this approach

Love Does Not Control Thomas Jay Oord, John Loppnow, Annie DeRolf, Christy Gunter, Lon Marshall, 2023-04-03 That love does not control seems obvious to many people And yet the temptation to control often with good motives is strong The long term results of yielding to this temptation damage everyone Contributors to Love Does Not Control explore uncontrolling love and a vision of God as uncontrolling They do so from their perspectives as therapists psychologists and counselors Writers ponder what uncontrolling love might mean for human healing Open and relational theology operates as the underlying framework for most contributors That theology fits nicely with the belief that love is uncontrolling Open and relational theology rethinks divine power in light of love and postulates what it might mean for creatures to imitate their Creator's uncontrolling love The essays in Love Does Not Control are diverse Readers may discover some differences of opinion as they move from essay to essay But contributors share in common the quest to explore what uncontrolling love means for issues in counseling psychology and or therapy These essays have a power that goes beyond mere theoretical reflection The ideas in these pages have the capacity to transform our living And even reading Love Does Not Control has the potential to become an exercise in uncontrolling love

America Redux: Visual Stories from Our Dynamic History Ariel Aberg-Riger, 2023-05-02 A critical unflinching cultural history and fierce beacon of hope for a better future America Redux is a necessary and galvanizing read What are the stories we tell ourselves about America How do they shape our sense of history cloud our perceptions inspire us

America Redux explores the themes that create our shared sense of American identity and interrogates the myths we've been telling ourselves for centuries. With iconic American catchphrases as chapter titles, these twenty-one visual stories illuminate the astonishing, unexpected, sometimes darker sides of history that reverberate in our society to this very day: from the role of celebrity in immigration policy to the influence of one small group of white women on education to the effects of progress on housing and the environment to the inspiring force of collective action and mutual aid across decades and among diverse groups. Fully illustrated with collaged archival photographs, maps, documents, graphic elements, and handwritten text, this book is a dazzling, immersive experience that jumps around in time and will make you view history in a whole different light.

Hidden Hooks Skye Alden, 2025-09-03. Stories shape how we see the world. They steer our choices and quietly build the rules we live by. From ancient marks on clay to the flicker of screens, stories have always been more than just things we listen to. They hold power, the power to light our hopes or hold us in place without us even knowing. *Hidden Hooks: How Stories Snare Our Minds and Move Our World* shows how stories have been used by kings, priests, poets, and rebels. Sometimes to control, sometimes to free. It moves through time and across lands, from Gilgamesh's epic to the Dreamtime songs of the Aboriginals, from the masked voices of Delphi to Sojourner Truth's calls for change. It looks closely at stories like the Ramayana and Star Wars where the lines between good and evil twist and turn. Through voices like Socrates, Sappho, and Rumi, we are invited to question what we're told and to find the truths beneath the surface. This book asks us to pay attention, to notice the strings that pull and to find the courage to break free. It opens the door to doubt, not as a weakness but a tool to see clearly. It encourages us to take the pen ourselves to tell our own stories that set us free. *Death and Philosophy* J.E. Malpas, Robert C. Solomon, 2002-06-01. *Death and Philosophy* considers these questions with different perspectives, varying from the existentialist deriving from Camus, Heidegger, or Sartre to the English-speaking analytic tradition of Bernard Williams or Thomas Nagel to non-Western approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretius, Epicurus, and Nietzsche. *Death and Philosophy* will be of great interest to philosophers or those studying religion and theology, but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal. **Live, Listen, Tell** Geoff New, 2017-03-03. *Live Listen Tell: The Art of Preaching* will guide readers through the process of sermon preparation and hearing God through the Scriptures. By drawing on life and Scripture, especially the road to Emmaus narrative in Luke 24, the author illustrates that preachers are living a story, listening to a story, and telling a story. This book encourages you to pay particular attention through prayer to the story to which you are listening. Geoff New shows how to prayerfully listen to the Scriptures in preaching preparation and how the fruit of this leads to a sermon and impacts the way we live, listen, and tell. **On Being the Church in the United States** Barry Penn Hollar, 1994. Ecclesiology and political theory intersect in the rich debate among Christian social ethicists in the United States concerning the public responsibility of the church in a democratic capitalist culture. This book begins by developing a

framework for analyzing a theologian's understanding of the church-world relationship. It also provides a broad account of the liberal philosophical tradition's justification for democratic capitalism. Chapters on Reinhold Niebuhr, Rosemary Radford Ruether, Stanley Hauerwas, and Roman Catholic Social Teaching analyze and assess the intersection between their ecclesiologies and their appraisals of liberalism. **Just Discipleship** Michael Jemison Rhodes, Michael J.

Rhodes, 2023-08-08. Biblical scholar Michael Rhodes argues that the Bible offers a vision of justice-oriented discipleship that is critical for the formation of God's people. Grounded in biblical theology, virtue ethics, and his own experiences, he shows that justice is central to the Bible, central to Jesus, and central to authentic Christian discipleship. *The Best Short Stories of ...*

New Monologues and Dialect Stories Mary Moncure Parker, 1908. Reality in Ruins Jared Stacy, PhD, 2026-03-17. For anyone who has ever

said "It feels like we're living in different realities," an unforgettable read and definitive explainer of the strange history of evangelical conspiracy theory. Conspiracy theories are at the root of the most pressing political problems of our time, yet their influence cuts just as personal. Suspicion has fractured families, communities, churches, and our very social fabric, as one person's fact is another's fake news. In *Reality in Ruins*, Dr. Jared Stacy braves the untold history of conspiracism in American evangelicalism and the anxiety at the heart of this radioactive movement that affects us all. In a new age of what he calls "Disreality," many are left reeling in the ruins of what was once a common world, now splintered by warring ideologies, religious and political extremism, and cults of certainty. Dr. Stacy reports from the inside as someone raised and even ordained in one of the nation's most conservative denominations. Now, as a historian and post-evangelical theologian, Dr. Stacy traces the currents of pain, panic, and power that have thrust the evangelical church into a theological crisis with consequence for everyone. For concerned citizens, Christians who are sounding the alarm on Christian Nationalism, and anyone grieving the

relationships paranoia has ruptured Reality in Ruins profiles the problem validates your pain prepares you for good resistance and empowers you to become the truth tellers a common world deserves **Best Short Stories** Edward Joseph O'Brien, Martha Foley, 1920 The Best Short Stories of 1915 Edward Joseph O'Brien, 1916 **Stories and teaching on the Litany** Joseph William Hardman, 1885 **Stories of Vinegar hill, by the author of Sunday all the week** Anna Bartlett Warner, 1871 Electronic Networks Tharon W. Howard, 1999 In spite of all the hype about the Internet and the ways networks are changing the face of education there is surprisingly little information of pragmatic value to teachers This book addresses that problem head on Electronic Networks is a book written by practicing classroom teachers about actual instructional computing projects in real classrooms Rather than talk about the classroom of the future the authors provide the help teachers need to integrate instructional technologies in their classrooms They do so by addressing the real problems and real successes of teaching in networked environments One way to read this book is to look for specific conditions and activities that ensure success with computers Taken as a whole the book is an argument for building a human infrastructure at the same pace we are installing computers and writing for developing effective ways to assess whether students are truly benefiting from technology and for addressing issues of equitable use **The American Claimant, and Other Stories and Sketches** Mark Twain, 1896 The American Claimant is about Americans the way they view themselves the way they are viewed by others through the eyes of a British nobleman Even though a century has passed since the book was written most of the acute observations are as true today as when it was written A young English nobleman Viscount Berkeley has determined to renounce his aristocratic station emigrate to America and make his way by ability alone His place in England is taken by Colonel Sellers who believes himself the descendant of the family Each learns that his conceptions of the society he is entering are wildly incorrect as Twain reiterates a favorite theme disenchantment with democracy Other selections include The 1 000 000 Bank Note which charts the magical rags to riches ascent of a virtuous and resourceful mining broker s clerk from San Francisco who arrives in London with a single dollar in his pocket and proceeds to ultimate and splendid financial success and fame in London society a paean to ingenuity and a celebration of its cunning confidence man narrator
