Supernatural Pennines:

Supernatural Pennines Jenny Randles, Roderick Martine, 2003 Since ancient times the moors and valleys within the Pennine hills have been fertile ground for strange phenomena. *Supernatural Pennines* relates over 100 of these inexplicable case histories which have come to light through regional surveys and in depth examinations. We learn of the stretch of the Yorkshire Lancashire border which has a record number of claims of alien abduction and where odd lights in the sky are so frequently observed that it is known as UFO Alley. There are cases of poltergeist inducing rain, incredible real life video recordings replaying past events, humming noises emerging from the ground, big cats roaming, ghost like through the peaks, ice bombs raining on houses from clear skies, mysterious burns to the skin, extinguishing of street lights and even flying dinosaurs. In Lancashire the magical aura of Pendle Hill is causing strange events four centuries after its infamous witches were arrested whilst in the Derbyshire Peaks the flow of time itself is routinely interrupted. Often places where such phenomena abound are remote and inaccessible to scientific research, one day harness the energy that triggers strange forces within its midst. *Supernatural Pennines* reveals the mysterious energy at work in this remarkable area and demonstrates that it is one of the most haunted places on earth.

Supernatural Isle of Man Jenny Randles, 2003 The ancient kingdom of Mann has many unique charms from its steam trains and horse trams to the world's oldest unbroken parliamentary democracy. However the island is also home to a rich gathering of legends and present day mysteries. Where else in modern times would you find a UFO crash on a mountain top alongside precautions to ensure that the present British monarch paid homage to strange beings that live under a bridge. This book brings you the adventures of the fenoderee who created the world's first crop circles. It talks about the fearsome moddey dhoo that terrified castle guards plus dozens of other amazing cases including the most bizarre twentieth century poltergeist story on record. Even the island's creation myth is steeped in the supernatural. Whether following these weird tales from the comfort of your armchair or using the book's visitor friendly features on an actual trip you will find that wonder and mystery are alive and well just 60 miles off the British shores. *Supernatural Isle of Man* is the most informative and up to date account of this magical island. **Paranormal**

Encounters on Britain's Roads Peter A. McCue, 2018-02-19 In this detailed book Dr Peter McCue reflects on the enormous range of paranormal phenomena to have been reported along Britain's roads and examines the theory that certain areas seem to be hotspots for such occurrences such as the A75 and B721 roads in southern Scotland and the Blue Bell Hill area in Kent. He delves into the sightings of apparitional vehicles, encounters with colliding apparitions, phantom hitch hikers out of place, big cats, phantom black dogs, UFOs, missing time, strange memory gaps, vehicle interferences such as mysterious breakdowns and incidents in which drivers and passengers seem to have been translocated in space or time. This thorough book debates the evidence and theories in a critical but open minded way and is a welcome addition to the genre.

Britain's Paranormal Forests Peter A. McCue, 2019-10-07 Peter A McCue examines intriguing reports of people

experiencing uncanny events in Britain's woods and forests from mysterious lights and strange animal encounters to ghostly experiences. Much of the reported witness testimony was obtained first hand by McCue or other researchers. While he draws sceptical conclusions about some of the alleged incidents he takes others seriously and considers possible explanations. Fully illustrated and written in McCue's inimitable style *Britain's Paranormal Forests* will make you think again about your next walk in the woods.

Light and Dark Trevor J. Hawkeswood, 2013 Trevor J. Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime. In *Light and Dark* he recounts some of these incredible interactions. He believes that reality occurs on two separate but interwoven planes of existence: the Earth plane and the multiple levels of the spiritual planes, including the lower levels from where the dark souls of humans who have died reach out to us. He has experienced more than one hundred sightings of the shadow people or black ghosts. He credits guardian angels with saving him from harm or certain death on a number of occasions. Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs. He has personally experienced clairaudience, voices from beyond, and precognition or the ability to see the future. His detailed account of a unique out-of-body experience (OOBE) challenges what is known about this remarkable ability. His OOBE was unlike anything that has ever been described by others who have experienced it, and he shares it all in *Light and Dark*. But it hasn't all been safe or pleasant. At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him. A comprehensive handbook for the paranormal enthusiast, Hawkeswood's work also provides a glossary and reference list of English language UFO books. In *Light and Dark* he shares a lifetime of experiences, ideas, and theories about this fascinating field of study.

The Alien Book Nick Redfern, 2019-09-01 Unmasking the mysteries of alien life on earth. Make mention of the word alien and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop culture, not just the field of UFO research. They've appeared in Steven Spielberg's classic 1977 movie *Close Encounters of the Third Kind*. They regularly popped up in *The X-Files*. And of course, there are numerous people all across the world who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet before the 1950s, the Greys were nowhere in sight. *The Alien Book: A Guide to Extraterrestrial Beings on Earth* shows that extraterrestrial life comes in all kinds of appearances, sizes, and bodies. They all have one thing in common: however the human race has encountered them, and we continue to do so today. Not just dozens or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes the Space Brothers, long-haired, very human-looking ETs; the fiendish Reptilians, seven to eight foot tall predatory shapeshifters; Men in Black beings, extremely pale-skinned, tall, and with huge eyes; Black-eyed Children, anemic-looking kids with solid black eyes that might be ET-human hybrids; Bigfoot, the werewolf-like Dogmen; jellyfish-style aliens that soar around the skies of our world; the Shadow People;

dangerous humanoids that terrorize people legendary Nephilim space vampires insect like aliens that resemble a giant praying mantis and many many more The Alien Book investigates the full range of sentient alien life forms Some are benign and others downright deadly Some are small like a germ or virus that has NASA creating guidelines to deal with an outbreak of an extraterrestrial germ Some are big like a giant praying mantis or the biblical Goliath They all lurk on Earth and in this chilling book With more than 120 photos and graphics this tome is richly illustrated Its helpful bibliography and extensive index add to its usefulness

Hair of the Alien Bill Chalker,2005-08-19 The shocking true story of a case unlike any other in the annals of UFO investigation DNA research or alien abduction July 23 1992 In Sydney Australia twenty eight year old Peter Khoury was awoken by what appeared to be two females both striking and unearthly kneeling on his bed What transpired between them was a physical assault as bizarre and disorienting as it was unnatural Then as quickly as they had arrived they vanished Khoury had become one of a legion of alien abductees with inexplicable experiences but this particular incident stood apart from all the others This time there was evidence two strands of white blond hair from one of the females Khoury s case would result in the very first forensic DNA analysis of alien abduction evidence and revealed an extraordinary biological anomaly one genetically close to human yet almost impossibly far from the human mainstream A gripping account of one of the great mysteries of our time Hair of the Alien brings us closer than ever before to understanding our past our origins and our place in the universe
