Supervision in Education

Daniel Tanner, Laurel N. Tanner, 1987

Supervision Peter Burke, Robert D. Krey, 2005 The first edition of this book titled A DESIGN FOR INSTRUCTIONAL SUPERVISION provided a structural framework for an effective program of instructional supervision The basic cognitive thrust of this second edition SUPERVISION A Guide to Instructional Leadership remains the same as the first What has changed is the attention to the detail surrounding the design components References have been updated and streamlined

activities have been modified and examples of structure have been created using the current national policy situation as a base. Philosophical and historical definitions of supervision are maintained and expanded in this edition. It will help professionals with responsibilities for instructional leadership design a supervisory program that fits a local situation by taking advantage of the foundation provided herein. Attention is given to the selection of and the interrelationships between those assumptions, principles, objectives, criteria, and procedures so that planners of supervisory programs will gain the knowledge and tools necessary to create that structure from this book. It also provides a means for schools to have a well-conceived, carefully designed, properly implemented, and continuously evaluated plan for the supervision of instruction in order to reply competently to state and federally mandated assessments for students. In addition, personal perspectives of the authors are presented in each part of the text. The book will serve as a guide and provide direction to instructional supervisors, directors of services, principals, administrators at all levels, teachers, grade level or department chairs, and others interested in the management of instruction in the school setting.

Supervision Thomas J. Sergiovanni, Robert J. Starratt, 1993. This edition continues to promote a new vision of supervision from that of a top-down activity performed by higher-ups in the school hierarchy to one in which supervision is a shared activity involving all stakeholders in the school, including teachers, administrators, and parents. The book sees schools as communities rather than organizations and emphasizes the student-teacher relationship rather than bureaucratic functions. This edition of the text continues to emphasize the moral implications of supervision and teaching. The revision places greater emphasis on the role of community and the link between the learning community, students, and teachers. A new chapter 4, "Community as a Force for Change," argues that teachers must assume more responsibility in order to bring about reform. Chapter 6 now redefines collegiality more deeply as a self-obligation to collaborate with others.

Supervision of Instruction Carl D. Glickman, 1990. Emphasizing democratic decision-making, this graduate-level textbook takes a broad-field approach to the multiple skills, techniques, and tasks of educational supervision. Chapters can also be useful in planning and implementing direct assistance to teachers, staff development, and program evaluation. Following introductory material, sections cover knowledge, interpersonal skills, technical skills, tasks of supervision, and the function of supervision.
