**The Echo of Death**, 2013      **Queering Early Modern Death in England** Lauren Shohet, Christine

Varnado, 2025-08-21 What does queer death have to do with early modern England This collection interrogates the profoundly queer strange excessive camp and uncanny dimensions of death in early modern English literary theatrical and material archives Contributors provide new insights on death by using the analytic tools of queer theory via non binary analyses of gender sexuality humanity nature embodiment and temporality Turning queer analysis to questions of death allows it to be understood as non dualist non linear a teleological and fruitfully muddled The essays illuminate early modern experiences before the ascendancy of Cartesian dualism occluded alternative understandings of death They also speak to a present and a future where many received paradigms no longer hold Key dramatic texts from the early modern period including *The Duchess of Malfi* *The Alchemist* *The Spanish Tragedy* *The Winter's Tale* *Richard III* and *A Midsummer Night's Dream* show the expansive possibilities of death and dying in a queer mode Further essays consider queer dimensions of death in lyric poetry animal husbandry typology and Shakespearean authorship These approaches make clear why readers interested in queerness and death should immerse themselves in the cultural life of sixteenth and seventeenth century England

**When the Bad Bleeds** Imke Pannen, 2010 Mantic elements are manifold in the English drama of the Renaissance period they are supernatural manifestations and have a prophetic future determining function within the dramatic plot which can be difficult to discern Addressing contemporaries of Shakespeare this study interprets a representative number of revenge tragedies among them *The Spanish Tragedy* *The White Devil* and *The Revenger's Tragedy* to draw general conclusions about the use of mantic elements in this genre The analysis of the cultural context and the functionalisation of mantic elements in revenge tragedy of the Elizabethan Jacobean and Caroline era show their essential function in the construction of the plot Mantic elements create and stimulate audience expectations They are not only rhetoric decorum but structural elements and convey knowledge about the genre the fate of which is determined by retaliation An interpretation of revenge tragedy is only possible if mantic providentialism is taken into account      *The Unappeasable Shadow* Adele M. Dalsimer, 2016-09-13 Yeats and his shadow are one of the most closely scrutinised pairs in contemporary literary history The meaning and significance Yeats gave to the entity by which he was constantly pursued and with which he held frequent colloquy have been held under the critical microscope and the shadow has emerged alternately as the course of human history the poet's alter ego his inner self the natural man or as anything that Yeats wanted but believed himself not to be This title first published in 1988 examines the influence that Shelley had on Yeats and this shadow The study concentrates primarily on the complex influence of Shelley's *Alastor* on Yeats tracing the problems it suggests and the questions it raises from Yeats's early highly imitative poems through the austere unromantic middle poems to the late poems where Yeats sees himself as the last of the romantics This title will be of interest to students of literature      **The**
