adapt and transform itself She spent years traveling through the region and discovered a South both amazingly similar and radically different from the land she knew as a child The new South is ahead of others in absorbing waves of Latino immigrants in rediscovering its agrarian traditions in seeking racial reconciliation and in reinventing what it means to have roots in an increasingly rootless global culture

The New Mind J Krishnamurti,2022-09-09 In these Talks given in India and Saanen Krishnamurti speaks to the necessity for a new way of looking thinking and being in the world What is the effect or value of an individual changing How will that transform the whole current of human existence What can an individual do there is no such thing as an individual consciousness there is only consciousness of which we are a part You might segregate yourself and build a wall of a particular space called the me But that me is related to the whole that me is not separate And in transforming that particular section that particular part we will affect the whole of consciousness And I think this is very important to realize that we are not talking about individual salvation or individual reformation but about being aware of the particular in relation to the total Then out of that realization comes action which will affect the whole
