The Of Nature:

The Book of Nature John Mason Good,1831 **Understanding the Rights of Nature** Mihnea Tanasescu,2022-01-05
Rivers landscapes whole territories these are the latest entities environmental activists have fought hard to include in the relentless expansion of rights in our world But what does it mean for a landscape to have rights Why would anyone want to create such rights and to what end Is it a good idea and does it come with risks This book presents the logic behind giving nature rights and discusses the most important cases in which this has happened ranging from constitutional rights of nature in Ecuador to rights for rivers in New Zealand Colombia and India Mihnea Tanasescu offers clear answers to the thorny questions that the intrusion of nature into law is sure to raise *The Whole Duty of Man According to the Law of Nature ...
